Weather Forecast

Victoria and vicinity—Friday: Clear and warm. Fog patches over water and low-lying areas in early morning.
Wednesday's Temperatures: Min. 52; Max. 78.
Sunshine: 9 hours 48 minutes.
Today's noon temperature: 66.

Waste Less, Feed Europe, Truman Asks U.S.

7 Provinces To Attend Parley On Meat Strike

Seven provinces will be represented at a conference in Toronto tomorrow on means of ending the nationwide strike of 12,000 packing-house workers, one has declined an invitation to the parley and one is undecided.

Labor ministers or other high officials will attend the Ontario-sponsored talks from Alberta, Manitoba, Quebec, New Brunswick, Saskatchewan and Nova Scotia as well as from Ontario.

No official reply has come from Prince Edward Island, but Premier J. Walter Jones hinted Wednesday his province might deal with the strike problem by itself.

Premier Hart of British Columbia turned down the conference bid and said that nearly two weeks ago British Columbia had led all the provinces in offering to accept as its conciliator any officer appointed to negotiate on a nation-wide scale. In view of that offer, nothing could be gained by British Columbia's representation at the Toronto meeting, he added. Premier Hart expressed sympathy with Premier Drew's efforts.

SHORTAGE GROWS
The United Packinghouse Workers of America (C.I.O.) continued to insist on conciliation on a nation-wide scale and its walkout over demands for higher wages held the threat of the worst meat shortage in Canada's history. The union seeks wage increases averaging 17 cents an hour to bring the minimum hourly rate up to 92 cents in plants of Swift Canadian, Canada Packers and Burns and Company.

The Quebec Government Tuesday declared the strike in that province's packing plants illegal and stripped union locals of bargaining rights in the province, but today union officials appeared little concerned over the development.

3 British Officers Slain In Punjab

NEW DELHI (AP)—The director of Pakistan's public relations at Lahore announced today that three British officers of the Indian army were slain in recent incidents in the Punjab, where the communal warfare situation has been reported worsening. One of the officers was killed at Amritsar, sacred city of the Sikhs, while defending a refugee train from attack, the announcement said.

Refugees Appeal To Gandhi

Mohandas K. Gandhi (centre), Hindu spiritual leader, waves to Moslem crowd on his visit to Purana Qila camp where 50,000 Moslem refugees await transportation to Pakistan. Moslems have appealed to him to bring to an end the bloody skirmishes between Moslems and Hindus.

Now The Clean-up Begins

Mississippi and Louisiana residents now are faced with the gigantic task of cleaning up the wreckage, like that above, left by the hurricane that swept across Florida, the Gulf of Mexico and the Gulf states before blowing itself out. This scene, at Gulfport, Miss., was repeated all along the waterfront of Mississippi and Louisiana. Total damages was estimated at \$50,000,000.

LATEST Offer To Protect City From Meter Company 'Intimidation'

Submarine To Aid Air Crew Adrift

TOKYO (AP)—U.S. Far East air forces announced today a submarine had been dispatched from Truk to rescue a six-man crew which bailed out of a C-54 army transport plane 430 miles south of Guam late Wednesday. The men are aboard four life rafts.

Polio Total 254

No new cases of poliomyelitis had been recorded in B.C. up to noon today, the provincial health department reported. At the last count the provincial total for the year was 254.

Chinese Take Tsisia

NANKING (AP)—The Chinese government announced today the capture of Tsisia (Chihshia), 35 miles southwest of Chefoo, after a night battle in the streets with strong Communist forces.

De Valera In London

LONDON (Reuters)—Premier de Valera of Eire, looking somewhat tired, was greeted by the Eire High Commissioner to Britain, John Dulaney, and British government officials when he landed in London today from Paris to review progress of the Anglo-Eire trade talks.

Plan New Atom Pile

WASHINGTON (AP)—Plans for a new atomic chain reactor pile at Oak Ridge, Tenn., "several times more powerful" than the one now operating were announced today by the U.S. Atomic Energy Commission. A staff member said the pile will open new opportunities to explore some of the "many things about the atom that still are a mystery to science."

Offer To Protect City From Meter Company 'Intimidation'

A legal battle between the different parking meter companies selling meters to Canadian cities appears to be looming. Today the City Council received a query from E. T. Curlette of Calgary, who represents the Magee-Hale Park-O-Meter of Oklahoma City.

In his letter Mr. Curlette said: "I am endeavoring to trace evidence of intimidation by one of our competitors in the matter of patents. I should greatly appreciate being advised if you have been communicated with, or verbally informed, of any action which might be taken against your city in the event Magee-Hale Universal Automatic Park-O-Meters, or any other parking meters for that matter, are installed in your city." (Victoria's

meters were installed by Mi-Co Company of Canada.)

Earlier this week the City Council received notice from the Dual Parking Meter Company of Canada that it held patents on certain features, included in the meters on the city streets, and that if their use was continued the company "would take action to protect our rights."

Mr. Curlette in his letter said that his company had just completed a successful action in the United States under anti-trust laws, wherein a competitor had tried to intimidate cities into buying their meter.

He promised that if Victoria would inform him of any such threat, "we will run the matter down and endeavor to eliminate it as soon as possible."

Dugald Probe Witness Says Wood Coaches 'Safe', Except In Wreck

WINNIPEG (CP)—A Canadian National Railways official said today that while gas-lighted wooden cars are "quite safe (to operate)" except in case of a wreck, "electrically-lighted steel cars 'probably are more desirable'."

Edward Jenkins, assistant general superintendent of car equipment, C.N.R., told a Board of Transport Commissioners inquiry into the head-on collision of two C.N.R. passenger trains late on the night of Labor Day, that no car, however, was safe in a wreck.

Thirty-one persons—all aboard the west-bound Campers' Special—were killed in the crash or ensuing fire which swept most of its wooden coaches. Passengers on the east-bound transcontinental escaped without any serious injury.

The third—probably last—morning of the inquiry probed deeply into the cause of the fire. In its previous sessions the board had attempted as well to establish the cause of the collision.

TELLIE EXONERATED

Earlier, the railway had announced exoneration of Ronald Tedlie, 55, operator at Dugald, Man., where the crash occurred, of all blame and said his job had been pestered Sunday. He had been arrested on a coroner's warrant as a material witness.

The morning's first witness, B. W. Sutton, a district car foreman of the C.N.R., said he had reached the scene of the crash early in the morning of Sept. 2 and assisted in the removal of the wrecked cars to the railway shops at Transcona. In some cases only the steel undercarriage remained unburned by the flames which swept through the special.

He had noted that two gas tanks—presumably tanks containing illuminating gas for the coaches—had been ripped open at one end. However, he had never heard of this particular type of gas exploding, although previous witnesses had testified hearing a series of explosions.

It might be possible, he added, but in his opinion a spark might have been the cause of the fire. In cross-examination, he told A. K. Dysart, C.N.R. counsel, that only two of the approximately 25 gas-containing tanks attached to the coaches had been ruptured.

Mr. Jenkins, assistant general superintendent of car equipment for the C.N.R., said the oldest wooden car of the train had been built in 1905, the newest in 1921. The 1905-built coach had been "general shopped" the previous July—generally overhauled and rebuilt. All were destroyed by fire.

In his opinion the fire might have been caused by a spark igniting gas escaping from one of the ruptured tanks. This, he emphasized, was merely an opinion, not a definite cause. He believed also, it was "not as desirable" to use wooden cars, gas-lighted, as compared with steel cars electrically lighted. Wooden cars were safe to operate except in the case of a wreck.

Middle Of Road On Foreign Policy Taft's Present Stand

SEATTLE (AP)—Senator Robert A. Taft (R-Ohio) chose the middle of the road on foreign policy questions today as he carried to Tacoma a Republican vote-seeking campaign enlivened by his wife's lampooning speech against the Democratic administration and labor leaders.

The Ohio senator was to make an important foreign affairs address in Tacoma tonight, and was prepared to say that he agrees with neither the extreme "isolationist" nor "internationalist" viewpoint.

He told a group of Washington State Young Republicans in an informal conference that he classes himself as being "in the middle of the road."

But while Taft discussed this and other issues, Mrs. Taft unwittingly stole the show here with a crackling speech before a women's Republican club meeting in which she urged members to work for President Truman's defeat in the 1948 election.

She charged the administration had permitted "fellow travelers" to occupy high posts, had encouraged government "meddling" in people's affairs and had allowed "labor leaders to push the people around."

Evatt To Head U.N. Committee On Holy Land

LAKE SUCCESS, N.Y. (CP)—Dr. Herbert V. Evatt, Australian Secretary for External Affairs, today was elected chairman of the special United Nations Assembly Committee on Palestine.

Meanwhile in the Security Council Poland proposed formally that the council give blanket approval to the applications of Italy, Hungary, Romania, Bulgaria and Finland for membership in the U.N. The five are ex-enemy powers covered by the new peace treaties which went into effect last week.

No votes were cast against Evatt in the Palestine committee, but the Yugoslav delegate abstained, complaining that a non-British Commonwealth delegate should have been chosen.

Canada's delegate on the committee is L. B. Pearson, Under-Secretary for External Affairs, whose name earlier had been mentioned as a possible choice.

TO ISSUE INVITATIONS

Evatt suggested inviting representatives of the Jewish Agency for Palestine and the Arab Higher Committee for Palestine to participate in discussions of the 55-power committee on the same terms which were adopted at last spring's special Assembly session on Palestine.

His proposal was adopted without opposition. Evatt then called for a statement from the United Kingdom as the country which rules Palestine under a League of Nations mandate.

British sources indicated Britain would be prepared to speak tomorrow. Colonial Secretary Creech Jones is expected to deliver his country's main policy declaration.

PEARSON DECLINES

Evatt's election as chairman had been assured when Pearson indicated he would not be able to serve.

The brief session then adjourned until 11 a.m. tomorrow.

The Polish resolution on membership was submitted by Foreign Minister Zygmunt Modzelewski after Herschel V. Johnson, deputy United States delegate, and British delegate Sir Alexander Cadogan had urged admission of Italy.

Both Britain and the United States previously had opposed the admission of Hungary, Romania and Bulgaria because of the attitudes of their Communist-dominated governments.

The extraordinary session of the Security Council was under chairmanship of Andrei Gromyko, Council president for this month. It came one day after the General Assembly's 55-member political committee had unanimously voted in Pakistan and Yemen, both Moslem countries. They will be seated shortly at a plenary Assembly sitting, increasing membership to 57.

Argentina meanwhile formally proposed to the Assembly that Eire, Portugal and Transjordan should be admitted to membership although Gromyko twice has vetoed each of these three applicants—war-time neutrals—in the 11-member Council.

Emergency Session Of Congress Up To Chiefs Of Parties

Transit Hearing Slated Oct. 6 By Utilities Board

The Public Utilities Commission will hear applications from the B.C. Electric Railway Co. Ltd. and Vancouver Island Transportation Company Ltd. for approval of the transportation franchise in the Greater Victoria area, at 10, Oct. 6, the City Council was informed.

Assuming that the Public Utilities Commission approves the franchise it could be signed by the Lieutenant-Governor in Council before the middle of October and the unified system be in operation by Nov. 1.

Although the companies are not compelled by their agreement with the four municipalities of Greater Victoria to implement the unified system until a full 30 days after the signature, it is generally believed they would prefer to accelerate its operation by starting Nov. 1, instead of waiting until the middle of the month which would complicate bookkeeping.

Members of the transportation committee, under the chairmanship of Ald. H. M. Diggon, had become restive under the long delay in getting the unified system under way since the by-laws were passed June 19. Ald. Diggon said today his committee was being flooded with requests for extensions of routes, improvements in service, and demands for the start of the new system.

A new fare structure, selling four tickets for a quarter within the three-and-a-half-mile limit, and a weekly pass for \$1.25 will come into operation with the unified system. In addition there will be universal transfers in this circle.

After government approval is received the B.C. Electric will make the first of four semi-annual payments to the city on the \$290,000 earmarked to aid in the cost of track removal. Plans have been made to start the track removal project on Skinner Street and clearance for this project obtained from the government.

Vancouver To Pay Higher Gas Rates

VANCOUVER (CP)—The Public Utilities Commission has approved higher gas rates for Vancouver, effective from last Monday, the B.C. Electric announced today.

Consumers now are paying an average of \$3 to \$4 more per month for house heating, 82 cents more for water heating. Company officials said the general increase amounts to 17.2 per cent, but the increase for domestic users, who make up 60 per cent of the gas company's customers, will be 10.6 per cent.

WASHINGTON, Sept. 25 (AP)—President Truman appealed today to everyone in the United States to waste less food as part of a program to keep Europeans from hunger.

He told a press conference that food conservation also would help the family budget.

The President said:

1. A decision on a special session of Congress for emergency aid for Europe will flow from a meeting he has scheduled Monday with congressional leaders of both parties. He hopes a special session can be avoided and has an open mind on the subject.

2. On the long-range Marshall Plan, for helping European countries which help themselves and each other, careful study will precede any action and the government will move cautiously.

3. A special committee of citizens has been named to consider the immediate food problem and advise "on ways and means of carrying out the necessary conservation effort."

4. Other committees have been assigned the responsibility of studying the report drawn up by 16 countries in Paris, outlining their needs under the Marshall Plan.

Mr. Truman said he had been advised that people of the United

States waste the equivalent of 70,000,000 bushels of wheat. Presumably he meant 70,000,000 bushels a year.

RECOMMENDATIONS MADE

The proposal for conserving foods followed a recommendation of a committee of cabinet members who have been studying world food programs. This committee is headed by Agriculture Secretary Anderson and includes State Secretary Marshall and Commerce Secretary Harrison.

Mr. Truman released their report, plus a statement of his own on it and on the Marshall Plan.

He said: "The cabinet (food) committee made it clear... that definite steps to conserve on use of foodstuffs at home and reduce the feeding of grain to livestock will be essential if we are to make our fullest contribution towards meeting minimum foreign needs and at the same time relieve the upward pressure on prices at home."

Victoria Company Buys Willows From Randall

Sale of the Willows property, including the racetrack, to a new company to be known as the Willows Turf and Country Club Ltd., was announced today in a joint statement by S. W. Randall of the Colwood Park Association Ltd. and Charles Brown of the Island Investment Co., Ltd. No purchase price was disclosed.

The new private company, with a capitalization of 300,000, authorized shares and 150,000 to be issued with a value of \$1 per share, has acquired all the Willows property together with the rights to a racing charter which will allow 14 days' racing at the strip.

"There will be no immediate change in the management and racing fans of Victoria are assured of the continuance of racing at the Willows next year," Mr. Brown said.

"The new company has every hope that arrangements will ultimately be made with the B.C. Agricultural Association for the staging of the annual fall fair at the Willows, which was canceled in the first years of the war," Brown said.

Randall purchased the Willows property from the city of Victoria in 1946 for \$125,000.

Just what plans the new company has for the Willows property, outside of the racetrack, were not disclosed today. The land totals approximately 65½

acres, of which the racetrack, grandstand and stables form a minor part.

Ohio Firm Dickers To Buy Canol Line; Bids Too Small Yet

WASHINGTON (AP)—The State Department is negotiating with an Ohio firm seeking to purchase a section of the Canol oil pipeline in Canada's far northwest, but no sale has been made, an official said today.

An assistant to Donald H. Connolly, commissioner of the department's office of foreign liquidations, told a reporter negotiations are being carried on with the Kulka Steel Equipment Co., Alliance, Ohio.

Involved is a 577-mile crude oil pipeline, with equipment, running from Norman Wells, N.W.T., to Whitehorse, Yukon.

This official said the company, in which the O'Sullivan Construction Co. of Lethbridge, Alta., is a partner, at one point made a \$35,000 down payment in connection with an offer.

NOT BINDING

The offer was later rejected as not satisfactory to the office of foreign liquidation, he added, so the payment is not binding.

Bids on the project were asked last March, and on May 5 Connolly announced that all 25 received were rejected as being too low. He said then the line would be sold by negotiation.

His assistant said the Kulka Company's offer was "the most promising," because several higher bids had a number of provisions and contingencies attached.

The Canol refinery at Whitehorse already has been sold to the Imperial Oil Company of Canada for \$1,000,000.

The entire project, started in the spring of 1942 when there was a shortage of tankers and when the Japanese threatened Alaska, cost approximately \$135,000,000.

MUCH ARGUMENT

It has been the subject of considerable controversy and of several congressional investigations. The senate war investigating committee, when it was headed by Mr. Truman, called it wasteful and ineffective.

The War Department announced in March, 1945, that the project—which had then been in operation about a year—would be abandoned.

Lucky Landing For 36 Air Travelers

A near tragedy was averted when this Bermuda-to-New York airliner crash-landed at the U.S. Navy's Floyd Bennett Field, New York City. One wing caught fire as the ship pancaked in, but the cabin remained intact and the 36 passengers were led to safety. Two of the plane's engines failed about 60 miles off the New Jersey coast and the landing gear wouldn't work.

Mayor, Guiltless Of Fraud, Accuses M.P. Of 'Frame-up'

COLLINGWOOD, Ont. (CP)—Mayor Graydon Kohl, acquitted recently of municipal corruption, told the town council Wednesday the charge was "a deliberate frame-up" and said that six men "should be removed from public office."

The six men named by the mayor: J. H. Ferguson, Progressive Conservative member of Parliament for Simcoe North; Councilor Stanley H. Wallace; Crown Attorney Frank Hammond; George Bryan, Collingwood lumber dealer; Jack Bermingham, Ancaster, Ont., contractor, and Dr. C. W. Maitland of Collingwood.

VERDICT QUICKLY REACHED

The corruption charge against Mayor Kohl was heard in Barrie, Ont., by a county judge and a jury. Defence counsel called no witnesses and the jury returned the acquittal verdict after being out only a few minutes.

The charge arose from dealings concerned with construction at the harbor of this Georgian Bay town. Mayor Kohl was alleged to have accepted a bribe to withdraw opposition to the project. Mr. Bermingham was the contractor to whom the town council assigned the job.

The mayor read a statement which said "calls were made" at the home of Dr. Maitland and that "meetings" were held at the homes of Mr. Bryan and Mr. Ferguson. Of Mr. Ferguson, the mayor said:

"I suggest he is a fine specimen of a member of Parliament,

who ignored the wishes of the Board of Trade as well as that of the town council in having work done on our town harbor and instead supported the opposite proposal."

Mr. Ferguson had "been prominent in the framing of April 17, 1947, against myself."

"In my opinion there has never been such a slanderous campaign carried on against an individual as was carried on against me on the night of July 9 and 10, 1947."

Italian Reds Urge Factories Seized

ROME (AP)—The Communist newspaper L'Unita declared today textile workers would seize plants by force if owners decided to close them completely because of a strike of approximately 40,000 administrative workers and technicians.

Some owners in Milan stated they would be forced to close the plants to avoid damage to materials by workers lacking direction from the technicians. A complete shutdown would make all of the industry's 550,000 workers idle.

The strike began Wednesday. Leaders of the Christian Democrat (Catholic) Party have attributed the wave of current labor unrest to an apparently co-ordinated leftist drive to topple Italy's Christian Democrat government.

In the Rome area, a strike of some 80,000 agricultural workers for higher pay went into its fourth day.

H.M.S. Conway Reunion At Esquimalt

Eleven former members of H.M.S. Conway met at H.M.C.S. Naden wardroom Wednesday evening. In the above group, with number of years served aboard the training ship are: Capt. F. Baylis (1887-89), H. M. McKay (1910-11), D. N. McKay (1915-18), W. G. Loler (1906-08), R. D. Knight (1926-27), A. C. Jones (1926-27), R. Mann (1938-40), Lieut. F. E. Wade, R.C.N. (1936-39), Lieut. V. G. Hunt (1940), Lieut. R. B. Hayward (1937-39), and Lieut. E. H. Hayes (1936-38).

Most outstanding of an outstanding group which held its first reunion at H.M.C.S. Naden Wednesday evening, was Capt. F. Baylis, who served aboard the famed training ship H.M.S. Conway from 1887 to 1889, held his first command 13 years later and went to sea again, after retirement, to command another ship in World War II.

The reunion was that of men here who had served aboard the Conway. Eleven were present. Four of them are still serving with the R.C.N. Some served with the navy during the war, and are now civilians again.

The reunion brought together Capt. Baylis, who was a master mariner with the Merchant Navy, and 21-year-old Lieut. W. G. Hunt, the youngest of the group, who is now serving with the R.C.N.

Conway, which was stationed for many years off Birkenhead, in the Mersey River, is now at Bangor Bay, North Wales. The 70-gun frigate, the oldest wooden-hulled afloat, is an R.N.R. training ship run by the Mercantile Marine Service Association.

Her cadets go from her to many walks of life, including the navy, the merchant marine, the air force and the army. Most, however, follow the sea and are to be found today serving as officers in the navies or merchant marine of the British Commonwealth.

Among the most famous of those who trained aboard the Conway are the captains of the Queen Elizabeth and Queen Mary.

Two members of the group who served last and first aboard the Conway are Capt. F. Baylis, who will be 75 Monday, left, and Lieut. Hunt, who is 21.

There are five former Conway members now serving at Esquimalt and others are training cadets at the joint R.C.N.-R.C.A.F. College at Royal Roads. It is hoped to make the reunion an annual affair and those in attendance Wednesday evening will contact other former members here for the next meeting. Conway organizations are in existence all over the world.

Howe Warns Of Problems Facing Canadian Economy Next Year

SAINT JOHN, N.B. (CP)—Encouraging news on the progress of basic industries in the seaside provinces coupled with a warning of the dangers facing the Canadian economy next year was studied by business leaders today as the Maritime Board of Trade continued its annual meeting after hearing an address by Reconstruction Minister Howe.

Mr. Howe, who addressed the board's annual dinner Wednesday night, noted a substantial increase in the Maritime working forces, but warned about rising prices and their probable adverse effect on economic conditions generally in Canada next year.

FOUNDATION STRONG

He asserted, however, that next year's dangers were certainly no greater than those of 1945. The Canadian economy was strong, and the most effective way of maintaining the present high levels of income and employment was to increase production and hold down prices until demand and supply could be brought into balance.

For all practical purposes the reconstruction period would end with the calendar year, terminat-

ing the economic transition to a peacetime basis.

"Housing and slum clearance will be a major task that must continue over a number of years with active participation by federal, provincial and municipal governments required to effect satisfactory results."

Mr. Howe pointed out the Maritimes were more urbanized and industrialized than before the war. Their non-agricultural working force had been increased 40 per cent to 132,000.

PLANTS CHANGED OVER

Government and private industry had invested \$30,000,000 in Maritime war production facilities, many of them adapted now to civilian production.

Mr. Howe said coal mining was an example of encouraging progress in basic industries. Still rising production-per-man-day was already close to prewar levels.

"Requirement for coal production subsidies has practically disappeared," he said. "The present cordial co-operation between management and workers is a new element in Maritime coal mining that augurs well for that industry, which seems definitely moving towards better days."

Scientist Envisions Car-Planes, Ray-Cooked Steaks, New Radios

LONDON (Reuter) — Car-airplanes, typewriters without ribbons, ultra-ultra rays in the kitchen to make tough meat tender, doors which open themselves, movable walls in houses, streets and clothes warmed by electricity, radios which deliver flash news.

These are only a few of the items "just around the corner" for all if we really want them, according to Prof. A. M. Low, principal of the British Institute of Engineering Technology.

In his new book, "Your World Tomorrow," just published here, Low describes this new world which, he says, is within our reach if only we are willing to devote to peacetime research a fraction of the money and effort expended on seeking new and more effective means of destruction.

In our homes of tomorrow, for example, says Low, television showing current events in any part of the world in clearcut, three-dimensional pictures and natural color will be the rule rather than the exceptional; flash news which comes in after our newspapers have "gone to bed" will be "printed" for our return simply by telephoning the home robot; and the garage doors will open as we approach simply by turning on a slight light upon them.

NEW GLASS BRICKS

There will be no more dry rot thanks to a combination of wood and plastics, interior walls made of glass bricks locked into position with a wooden key will be able to be taken down and stored when not required as a partition. The saying "a woman's work

is never done" will be entirely outmoded. Housework, with the use of tomorrow's appliances, will be done in two hours a day. The working week will consist of three or four days during which more will be produced than is produced at present in five or six days.

Reds' Quarters Bombed

MILAN (AP) — Communist headquarters in this strike-ridden industrial centre were slightly damaged early today when a bomb hurled by an unidentified person exploded outside the building. There were no casualties.

ANNOUNCEMENTS

A salvage collection for Fairfield, Fernwood and Mount Tolle. Phone E 3413.

Chalet, Deep Cove. Drive through the lovely Saanich Peninsula. Chicken luncheon, dinner or Devonshire cream tea, Phone Sidney 82-F.

Chiropractic. — M. J. Oscar, Registered Palmer Chiropractor, X-ray. 203 Central Bldg. B 2743.

Croydon Contractors, Drive ways, sidewalks, fencing, small alterations, steps. We served over there. May we serve you here? Phone E 3813.

For a glorious fall vacation, Shawigan Beach Hotel offers everything. A real change from sea level with solid comfort, log fires, warm lake-view rooms, good food. Handy to salmon fishing. \$34.65 single, \$59.85 double weekly, including delicious meals. Phone Cobble Hill 48.

Home Permanents — Lady, if it's the price you're after, ring the Speed-Way department La France Beauty Salon and get your hair shaped, oil-shampooed, dressed, for the price you can do it at home. Spray curl or machine, 4 minute permanent or take it home and do it yourself. Phone G 7443, 715 View Street. Guaranteed permanents.

Kilmala Guest House, Mill Bay, now open. Home-cooked meals; phone Cobble Hill 5Y3 or write for reservations.

Massage, general, facial, scalp, Colonic irrigations. Reducing. Electrical treatments. Diet. Registered staff. Estella M. Kelley, 612 View St., 501 Union Building, E 9121, E 0603.

Na-Way Wall Cleaners for a perfect job on painted walls and ceilings—no streaks, spots, muss—satisfaction guaranteed. G 8751 anytime for free estimates.

Personalized Christmas cards, advance samples now at Diggon's.

Reading you will like. Exciting new books and authors to look for at the Marionette Library. Join our library for interesting reading. Exclusive greeting cards E 1012.

Remember 13th Field Ambulance Reunion dinner, Saturday, Sept. 27, 7 p.m. No charge. All ex-active and reserve members invited. Phone your name in now. G 8654.

Rummage sale, Comitas Club, at Hard of Hearing Hall, above Coast Hardware, Douglas Street, Saturday, Sept. 27, 9.30 to 11.30 a.m.

The Federal Progressive Conservative Association holds its annual meeting Friday night at 8 p.m., at McDonald's Hall, 738 Fort Street, when all officers, committees, and delegates for the ensuing year will be elected. The meeting is open to all friends of the party.

Women's Canadian Club, Empress Hotel Ballroom, 3 p.m., Tuesday, Sept. 30. Speaker: Mrs. Nancy Hodges, M.L.A., subject: "Woman's Responsibility In The World Today."

2 Men Killed By Ship Blast

TEXAS CITY, Tex. (AP)—A flash fire and explosion occurred aboard the tanker Cedar Mountain Wednesday night, trapping two crew members in the engine room.

The body of one of the men was recovered early today. Crew member William Fall, Flushing, L.I., said the explosion "blew me out of my bunk."

Texas City was the scene of a major disaster in April when two ship explosions resulted in 700 dead or missing.

The Cedar Mountain is a 135,000-barrel high octane fuel carrier, Fall said.

Intense heat prevented rescuers from entering the engine room after the explosion.

Weather

Weather today and tomorrow, valid until midnight Sept. 26:

Synopsis—Skies are clear over the province. The fog condition will become general overnight and Thursday morning.

Overnight temperatures fell to below freezing in the Prince George region. Today's temperatures will continue above normal with little change anticipated for Friday.

Vancouver and vicinity. Lower Fraser Valley and Georgia Strait—Clear and warm today and Friday. Dense fog over water and low land areas this morning and again Friday morning. Winds light.

West coast Vancouver Island—Clear today and Friday. Fog patches over the low coastal areas during the morning today and Friday. Winds light today northwest 15 Friday. Little change in temperature.

T.L.C. President Asks Code Set Up To Govern Business

HAMILTON (CP)—Creation of a "business code" compelling industry and business to show reasons for price increases was proposed today by Percy Bengough in his presidential address to the Trades and Labor Congress of Canada.

Lashing out at price increases following new decontrol orders, Mr. Bengough declares "prices rising uncontrolled have become a gross injustice" and called for immediate federal action to halt them.

President Bengough addressed about 700 delegates representing 2,625 local units from all parts of Canada at the T.L.C. opened a 10-day meeting.

In his presidential speech, Mr. Bengough suggested labor had not fared well at the hands of the federal government in the last year.

The "urgent need" of retaining price controls was placed strongly before the federal government early this year, he declared. But current events—apparently a reference to the recent Prices Board decontrol order—indicated "that organized finance and industry received a more profitable hearing."

Chicago Tribune Builds Atom Shelter

CHICAGO (AP)—The Chicago Tribune announced Wednesday an atomic bomb shelter had been prepared under the Tribune building.

"Measures are being undertaken by the Tribune to protect, so far as is possible, its employees and tenants in the event of an atom bomb attack upon Chicago," the newspaper said.

Well-Known Scout Leader Leaving

Scouts and cubs of the Oak Bay troop bade farewell to one of their leaders, Bill Horne, Wednesday evening, and presented him with a number of scout insignia as mementos of his 15 years with the group.

Cpl. Len Backler, another leader, is shown making a presentation to Mr. Horne, as cubs and leaders look on. Jack Scrivener, scout master, took part in the ceremony.

Mr. Horne is well known to Oak Bay as he wheels along in his wheel-chair and scout uniform, which he wears constantly. He has been paralyzed from the waist down since early childhood but this has not prohibited him from being an active member of the scouts.

He first came to Victoria 15

years ago from Edmonton, and immediately took up scouting work. He said that he intends to carry on in Courtenay, where he will make his new home after next week.

His hobby is woodcraft and he spends many hours fashioning wooden scout insignia and the staffs to be used by the boys.

At the present time there are 60 cubs and 30 scouts in the Oak Bay packs and were leaders available there would be many more. Boys from 8 to 11 are eligible to join the cubs, and after 11 they become scouts. Men or women over 20 may become leaders and a course will be given at scout headquarters, which is financed by the Community Chest. The individual patrols are financed by their own neighborhood groups

and committees. At Oak Bay there are two girl cub leaders, Doris Carberry and Diana Jackson.

N. America To Buy 27,000 Austin Cars

LONDON (Reuter) — L. P. Lord, chairman and managing director of Austin Motors Ltd., who arrived back in Britain Tuesday night, said Wednesday he had obtained orders in the United States and Canada amounting to \$20,000,000.

"This calls for the delivery within the next 12 months of 20,000 cars in the United States and 7,000 in Canada," he said. "To facilitate their delivery we have set up special distributing organizations in both countries."

Vagrant, Suspect In Slaying, Freed

MONTREAL (CP)—A 52-year-old vagrant held for questioning in connection with the Owen Sound, Ont., sex-slaying of 11-year-old Betty Playford last Sunday night was released by police here Wednesday, cleared of suspicion.

Det. Capt. Georges Allain, head of the Montreal homicide squad, said "we are all satisfied he was in Montreal when the slaying occurred."

The police official said the vagrant "took to the highway again" for Toronto, whence he had come.

Admitted To U.N.

LAKE SUCCESS, N.Y. (AP)—The 55-power political committee of the United Nations' Assembly late today approved unanimously the admission of Pakistan and Yemen to U.N. membership. The final step will be routine approval registered by the same 55 nations in plenary session some time later.

Approve By-Law For Construction Of 100 Dwellings

PORT ALBERNI—Preparation of a by-law authorizing construction of the proposed 100 new Wartime Houses here was approved by city council Monday.

Agreements received from Wartime Housing will be given necessary readings and sent to B.C. Bracewell, deputy minister of municipalities, along with copies of the by-law.

The site in the China Creek area has been approved by Wartime Housing engineers who visited here last week, and a start on construction is expected within a few weeks.

Alberni Citizens Lodge Protest On Dusty Streets

PORT ALBERNI—A delegation of citizens here requested the city council to do something to alleviate the dust menace at the detour around the new bridge on Third Avenue.

The engineer and public works superintendent were instructed to seek some method of giving at least temporary relief.

The council was also informed by F. W. Souther, contractor, that the new bridge under construction was now ready for the steel which had been promised for Aug. 15, but had not arrived because of the steel strike.

He said steel might be available in the United States, but the cost would be much higher.

Alberni Seeking Extra Police Car

PORT ALBERNI—In reply to a letter from Commissioner T. W. S. Parsons, the city of Port Alberni claimed it was not part of its agreement with the Provincial Police to provide additional cars for policing the city.

The city maintains it is up to the police to provide extra vehicles if they are required to patrol the district.

Commissioner Parsons had informed the city that a second car could not be provided unless the city paid for it, and would have to be subject of negotiation in next year's contract.

To Submit Brief On School Taxes

PORT ALBERNI—Invitation to Port Alberni council to file a brief before the Royal Commission on School Taxation, scheduled to sit here Oct. 21, has been extended by L. T. Detwiler, secretary.

At the meeting Monday, council authorized Mayor W. C. Hamilton and City Clerk F. L. Kitto to compile the brief. The council also authorized Mr. Kitto to attend a meeting at Vancouver of the Municipal Officers' Association, which has been asked to prepare a brief on behalf of the Union of B.C. Municipalities.

May Use Barges To Move Homes

PORT ALBERNI—"Agreeably surprised" was the term used at Port Alberni council Monday by City Clerk F. L. Kitto, one of a delegation which visited the Bremerton duplex housing settlement, units of which may be brought here by barge by North Pacific contractors.

Mr. Kitto, Ald. L. K. Jordan and G. Folkard reported the houses are soundly built and complete with all conveniences. They said the houses appeared to be fully insulated in walls, ceilings and floors, and include oil heaters, wood-and-coal stoves, complete kitchen and bathroom equipment.

Amazed at the settlement's size, Mr. Kitto said it formerly held 6,300 families, although now it has only 200.

No definite arrangements have been made for bringing duplexes here, but the contractors have approved the city's terms concerning property.

Approve Plan To Install Power Lines

PORT ALBERNI—A plan by B.C. Power Commission for installing high voltage power lines along Eighth Avenue to the army camp was approved by Port Alberni Council this week.

The line will serve the new sash and door factory under construction by C. Manning, Sprout Lake Sawmills, and other industry in the camp, a letter from T. B. Bird, local power commission manager, revealed.

Right-Of-Way Problem Solved By Port Alberni

PORT ALBERNI—A solution to the problem of a right-of-way owned by A.P.L. Co., running through property slated for 100 wartime houses, was approved by Port Alberni council Monday.

The plan, advanced by R. Pendleton, A.P.L. official, suggested that the right-of-way be sold to the city for \$1,000, while the same price is paid by A.P.L. to the city for land desired by the company for erection of employee accommodation.

In commending the plan Mayor W. C. Hamilton noted the land on the right-of-way is more than three times as large as the property wanted by A.P.L.

Mr. Pendleton revealed the company plans erection of 16 family units.

Previously the company asked for certain timber rights on the watershed in exchange for the right-of-way. This plan was dropped when A.P.L. learned of objections.

2 Youths Sought For Questioning In Ontario Slaying

NIAGARA FALLS, Ont. (CP)—A killer with a rifle apparently bent on robbery, Wednesday shot and killed 56-year-old John Bell on the threshold of his suburban Stamford Township home and today police sought two youths for questioning in connection with the slaying. Officers said one of the wanted youths formerly lived with Bell.

Known to have been in the habit of carrying large amounts of money with him, Bell went to neighboring Niagara Falls, N.Y., Tuesday for the first time in 14 years and friends reported he spent money freely.

When the body was found late Wednesday afternoon, the pockets had been turned inside out and a billfold and an old-fashioned money bag Bell usually carried were missing.

One of the persons who noticed the shots was Mrs. Vera Thorne, 25, a neighbor, and about the same time she saw two boys hurrying into the bush, she told police.

Arnold Gay, a bread delivery man, found the body.

Inside Bell's house police found two shotguns and a rifle. Two cartridges were missing from the rifle and a bullet was imbedded in the living-room.

Bill Planned To Make Margarine Available

VANCOUVER (CP)—A bill to legalize the manufacture and sale of margarine in Canada will be introduced in the House of Commons next January by James Sinclair, Liberal from North Vancouver, it was learned Wednesday. Repeated attempts have been made to gain approval for similar legislation without success in past years.

Canada today is the only country in the world which prohibits the manufacture of the commodity.

Ontario Hospital Rejects Negrass As Student Nurse

OWEN SOUND, Ont. (CP)—Marrise Scott, 21-year-old negro girl whose application for admission to the Owen Sound Hospital's nurses' training course was rejected because of her color, said Wednesday night all she wants to do is "try and forget the whole matter."

One of a family of six girls and two boys, she said that since she obtained her junior matriculation three years ago she had unsuccessfully sought admission to various nurses' training schools in Ontario.

Advised by friends that there would be opposition to her from factions in the Owen Sound Hospital, she had applied to other institutions for admission to avoid creating "unpleasantness," she said.

"It was only as a last resort that I applied for enrollment at the school here and I am distressed at the publicity that has developed," she said. "I certainly did not ask nor expect that any publicity would be made on my behalf."

After Mayor Ed Sargent had discussed her case in Toronto Wednesday with Health Minister Kelley, the minister said he could not intervene in the Owen Sound situation.

However, if the girl still wanted to take up nursing, he would arrange for her admission to the nine-months' nursing assistants' course. He added that taking the course would shorten the time she would have to put in if and when she was admitted as a nurse-in-training.

2 Gunmen Rob Store

VANCOUVER (CP)—Mrs. Mary Vitaly was robbed of \$65 by two gunmen in her husband's store in suburban Grandview Wednesday night. Mr. Vitaly was absent at the time.

NOT WITHOUT THOUGHT

DESPITE THE CRITICISM FROM CERTAIN quarters that the Dominion Government has been "floundering" in the implementation of its de-control program, there is ample evidence to show that the plan for gradual removal of the restrictions and controls that were imposed under the pressure of wartime emergency has been carefully thought out and conscientiously applied. There was nothing helter-skelter about the system which has seen selected lists of commodities freed of administrative influence at specified periods during the two years since the war ended. There was nothing unpremeditated about the determination to remove the necessary restraints of wartime from the economy of a nation which is now at peace.

We have only to look to the great nation to the south of us to see the inflationary effect of a policy which removed controls too rapidly. We do not have to look much farther to see the results in countries which have refused, or have not been able, to remove wartime controls at all. There were many individuals who were inconvenienced by the imposition of the controls in this country. There have been many who were temporarily put out by their removal. Until supply catches up with demand, moreover, prices will be abnormal. That is to be expected when adjustments are made in an economic system as widespread and pervasive as ours. The controls were accepted by a free people engaged in a fight for survival. They have been removed in a gradual progression which in itself is an assertion of the belief of that free people that the best government is one which interferes least with the personal lives of its subjects.

But the Dominion's policy goes farther than this, as Hon. Mr. Colin Gibson, Secretary of State, made clear in a radio address last night. The Prices Board is still in existence, and where injustice appears in the form of "unreasonable" price increases by those who would seek to victimize the buying public, it can re-impose ceilings to protect the consumer. This is surely the maximum of protection with a minimum of control, and the Government is to be congratulated on the success which has attended the Canadian policy.

DOWN WITH CREPE-HANGERS

THOUGH THEIR FULMINATIONS HAVE not reached disturbing or serious proportions, elements of our people seem to have got it into their heads that some form of business recession is around the mythical corner. It is not easy to understand why this habit of thought has taken root in certain quarters. But it nevertheless exists; it is to be found, strange to say, in the minds of those who ought to know better and whose political beliefs are those indelible with either the Liberal or the Progressive-Conservative parties. It never seems to occur to them that if there is one condition that radical factions in the Dominion desire to promote and foster it is that of confusion—a type of confusion and timidity which invariably has more than a little bearing on business courage and faith.

Not only do these "economic fatalists" exist in Canada. Similar fears have fastened themselves on not a few timid souls in the United States. We are reminded of this condition in the neighboring republic by some potent remarks which Mr. Paul G. Hoffman, president of the Studebaker Corporation and chairman of the Committee for Economic Development, emphasized before a group of business men in Washington the other day. He was urging all men of vision and courage to join the latter organization for the purpose of controlling the dangerous idea that a great depression would inevitably overtake the United States in the early fifties. Dealing with this lugubrious concept of the future, editorially, the Washington Post has this to say in part:

"There is no rational basis for believing that because the country has suffered periodically from catastrophic depressions, these are indubitably bound to recur. As a matter of fact, the more we know about the history of business cycles, the more certain it becomes that there is no predictable, automatic repetition of business cycles—certainly nothing in the past to warrant a fatalistic attitude toward the future and passive acceptance of the blows dealt by a malign conjunction of adverse economic factors."

"This kind of attitude, Mr. Hoffman realizes, is capable of turning a moderate business recession—which is only to be expected after a post-war boom—into a major depression that feeds on itself. The businessman who takes alarm prematurely, cuts orders in preparation for the feared storm and curtails his selling and advertising activities is helping to bring about the economic prostration that he vainly hopes to protect himself against. Business depressions cannot be fought by throwing men out of work and destroying the purchasing power that is the lifeblood of the economic system."

If we have read the foregoing comments correctly, our contemporary realizes the necessity of preaching the gospel of common business sense in appreciation of the tremendous opportunities for production inherent in the demand for goods—both in Canada and in the United States—which the consuming public has been compelled to do

without during the war years. Naturally enough, intensifying, instead of reducing, market pressures to "keep alive the will to buy" is a policy which demands far-sightedness on the part of business leaders and the public generally. It may not always succeed. But it does not require a great deal of imagination to visualize the results of an alternative plan of general retrenchment. To adopt the alternative, indeed, would be to invite economic chaos. For example, as the Washington Post quite properly points out, a major depression of the magnitude experienced in Canada and the United States in the thirties not only would spell suffering for millions of people on the North American continent, but would probably spell the downfall of the free economic system of the two neighboring countries.

If those elements in this country that seem to believe Canada may soon be teetering on the edge of an economic abyss would give more thought to the manner in which they could contribute to the defeat of any imported economic or political ism and less to the expression of their apprehensions, they would be serving their own and the nation's best interests. Surely it will not be necessary to learn all over again, by hard experience, the lesson of the thirties.

TOOLS OF CRIME

INTO THE WATERS OF LONG ISLAND

SOUND this week went a motley assortment of weapons and counterfeit slugs collected by the New York police department in recent years. These were the tools and accoutrements of individuals who set out to beat the law. Probably no one was injured by the petty dishonesty represented in the 328,340 slugs and discs dug from subway turnstiles. But no such innocuous suggestion can be made of the other materials: 3,153 pistols and revolvers, 467 machine guns, rifles and shotguns; 2,041 air and spring rifles, 838 toy pistols and 1,316 other weapons, including knives, swords and brass knuckles.

This veritable arsenal represented confiscations in a great metropolis over a substantial period of time. Its pieces, with the exception of the machine guns, could have been collected in smaller volume from almost any urban centre on this continent.

In British Columbia efforts have been made by police to register arms properly possessed by the civilian population. Inevitably, however, revolvers and automatics turn up in the hands of criminals who have no license to carry them. It is obvious that many small arms are widely distributed among the public at present. There are, for instance, souvenir weapons brought back by servicemen which may, quite easily, fall into the wrong hands. If their owners wish to retain them, and can supply good reason for keeping them, they should assume full responsibility for their safe-keeping, and see that they do not come into the possession of potential malefactors either through theft, sale or trade.

The origin of a gun makes no difference in its lethal character. Its very nature is destructive, and its confiscation by police following a crime or attempted crime is a course which is pursued too late to be fully effective.

SPAIN AND TRUTH?

IN A FOLIO AND ONE-HALF OF single-spaced typing, issued under the imprint of the Argentine Republic Ministry for Foreign Affairs and Worship, Department of Culture, Professor Adriana Teresa Bo has written an article "Love for Spain and for Truth." Its introductory paragraph indicates the general tenor of the document. The paragraph follows:

The voice of Argentina has reached Spain, and has finally banished misunderstanding; it ratifies the friendship of two countries which have always had a community of ideals. Centuries ago, Spain, the land of saints and heroes, sent them to perpetuate across the seas the virtues of its race; today, Argentina, vigorous synthesis of the Spanish spirit and being, repays the sacrifices of former times with a message of friendship and collaboration. The bearer of this message, Mrs. Maria Eva Duarte de Peron, has faithfully transmitted, in word and act, the spirit of the Argentine people, faithful expression of the soul of America and which is not only an affective impulse but implies the consideration of the grave problems which humanity faces today with misgivings and doubts, and endeavors to give a satisfactory answer to all of them.

Is our picture of those "saints and heroes" so distorted that we see them, with sword and fire raping an Aztec civilization for the gold that helped to finance a Spanish career, passing its zenith and heading for decline? And do we find in the Argentine a vigorous synthesis of the Spanish spirit and being, repaying the sacrifices of former times with a message of "friendship and collaboration" for the Franco regime which is an offence to the nostrils of democracy? On a previous occasion we have dealt with the message borne by Mrs. Maria Eva Duarte de Peron to Spain's portly little dictator—and the unequivocal response her visits to free countries in Europe provoked.

We are disposed to think Professor Adriana Teresa Bo's composition has been submitted to the wrong market when it reaches the northern section of the western hemisphere. And we wish she would be less loose in her use of the word "America" when she seeks to identify Mrs. Peron's message with the soul of some land mass.

NOTES

Radio comedy programs are often worth listening to. There is some person in the studio audience whose laugh is a joy to hear.

One world, united by bonds of love, will be hard on movies and writers. There will be no outcast race to furnish all the villains.

Walter Lippmann

THE COLD WAR

IT MAY BE that the Soviet Union, though committed in principle, will not in fact agree to a settlement which means the evacuation of Europe. If her purpose is the domination of Europe and of a large part of the world, she will never agree. For the military evacuation of Continental Europe would not be one of those "tactical manoeuvres" against which, quite rightly, Mr. X tells us to be on guard.

It would be a strategic change in the balance of power. For once the Red Army had been withdrawn behind the frontiers of the Soviet Union, it could not re-enter Europe without committing an obvious act of military aggression, which would precipitate a general war. The pressure of the Soviets upon Europe by propaganda and infiltration would continue, but that pressure would no longer be backed up by overwhelming military power throughout eastern Europe and by the threat of military intervention in western Europe. Though Tito's army, and perhaps the Polish army, assuming them to be satellites of Moscow, could exert considerable military pressure locally on the neighboring states, they are not capable of conquering and dominating Europe except as contingents of the Red Army.

IF THE KREMLIN really means to dominate Europe, it will not withdraw its armies which are halfway across Europe. Standing on the Elbe line in the middle of Europe and Austria, and on the vulnerable frontier of Italy, the Kremlin is in a far better position to advance farther west than it can be if it withdraws and stands on its own frontiers. The withdrawal of the army is, therefore, the acid test of Soviet conduct and purpose, incomparably clearer, more definite, more practical than whether or not they observe the Yalta declaration in countries liberated from the Nazis but still occupied by the Red Army. Verbal agreements like the Yalta declaration and the Atlantic Charter can be made the subject of endless tactical manoeuvring. For agreements of this kind do not change the balance of power. But the evacuation of a continent would change the balance of power.

THE KREMLIN WILL understand this, and we must expect it to exact the highest price it can obtain for what would be a deep reduction of its present power and influence in Europe, or, if it means to conquer Europe, to obstruct any settlement which meant that the Russian armies must evacuate Europe.

The United States will in either case have clarified the real issue. Instead of seeking "to contain" the Soviet Union all over the Eurasian continent, she will have the initiative and a definite and concrete objective: At the best she will know the terms on which the main conflict can be settled; at the worst the Soviet Union will have shown its hand on an issue—the liberation of Europe from non-European armies—where there will be no doubt whatever that the American cause is just, and that the United States is the champion of people of Europe will be with her.

THE UNITED STATES will have written off the liabilities of the Truman doctrine which must in practice mean inexorably an unending intervention in all the countries that are supposed to "contain" the Soviet Union. She will be acting once more in the great American tradition which is to foster the independence of other countries, not to use other countries as the satellites of her own power, however, well meant. Her aim will not be to organize an ideological crusade. It will not be to make Jeffersonian Democrats out of the peasants of eastern Europe, the tribal chieftains, the feudal lords, the pashas, and the warlords of the Middle East and Asia, but to settle the war and to restore the independence of the nations of Europe by removing the alien armies—all of them, her own included.

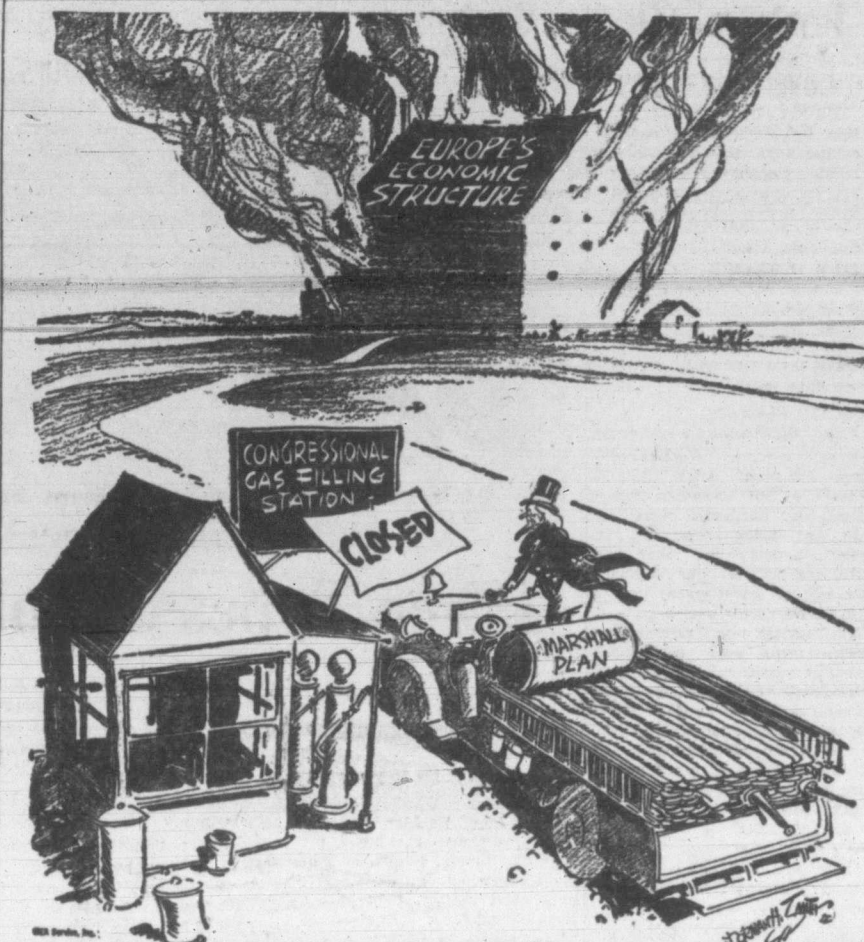

The United States will have a diplomatic policy that it would be exceedingly difficult for the cleverest propagandist to misrepresent. For every one can understand such a policy. Practically every one will wish her to succeed in it. For alien armies are hateful, however well behaved, just because they represent an alien power and are, therefore, a perpetual reminder that the people on whom they are quartered are not masters of their own destiny.

ALIEN ARMIES ARE, however, never well behaved; invariably they become corrupted. Thus the United States may count confidently upon a mounting popular support if she makes it her mission to emancipate the ancient and proud continent of Europe from the military control of non-European powers. She will be drawing upon the elemental and unifying passion of patriotism in Europe which, when it is aroused, is a much stronger passion than factionalism or any ideology.

The evacuation of Europe can be accomplished only if the United States can negotiate, sign and ratify a treaty of peace for Germany and for Austria to which the Soviet government is a party. For the peace treaties about eastern Europe, which is between Germany and Russia, cannot become effective until there are German and Austrian treaties. The Red Army will remain in eastern Europe as long as it remains in Germany and in Austria.

In The Meantime, What About A Bucket Brigade?

Politics And Science Speak Their Minds

VISCOUNT Herbert Samuel, former Secretary of State for Home Affairs, speaking on the world outlook:

"The great nations of the world cannot devote half their manpower to destruction instead of construction, cannot devote themselves to destroying ships, bridges, railways, harbors, power plants, factories, houses, to disrupting the lives of the peasantries in the great producing countries of the world, and to robbing them of their essential supplies of fertilizers, feeding stuffs, and so forth, without having to suffer for it."

LEAN YEARS

"When all this has been continued for six years, the world must expect to suffer. There is a Chinese saying: 'In the track of great armies, there must follow lean years.' It was so after the Napoleonic wars when, in this country, the people lived through a decade of utter misery; it was so after the war of 1914 to 1918 when, subsequent to a few years of fictitious prosperity, the world was plunged into the most widespread and most severe economic depression that it had ever known; and now, two years after the great war we see similar dangers impending."

PROF. OLIPHANT, distinguished British scientist and atomic bomb expert:

"War weapons now grow very quickly out of new fundamental knowledge, and therefore secrecy is spreading in the world of fundamental knowledge, because all nations are afraid if they give away fundamental knowledge of nature they may be giving away knowledge of weapons for the future."

"Men are dying all over the world for lack of anti-bacterial substances which have been developed to combat the bacteriological weapons which nations hope to employ in a future war."

"We must get back to the stage where men can communicate with one another, can talk about their knowledge of nature, can share the excitement of this new field of exploration. Modern knowledge has grown up in the course of a couple of hundred years, but religions, philosophies, and so on have been endeavoring to advance man morally for thousands of years and they have made a mess of it. "If science can grow so rapidly and give a man a command of nature so quickly then surely other methods of educating men can be speeded up."

LORD BEVERIDGE in an address on the British economic situation:

"The whole country has been running on wrong lines, very largely, so far as this government is concerned, under the misguidance of those excellent people the trade union leaders. The trade union leaders have thought that they could get an easy time for all. They have pressed for more and more leisure, and not only leisure for the people who want it but also a compulsory five-day week for people whether they want it or not."

HIGHER WAGES

"They have been pressing for higher money wages, and the government, not controlling them in any way, are now trying to boost the National Savings Movement in order to deal with this surplus of money for which there are no commodities."

"We have been running on wrong lines. We in this country have been led for a long time to believe that we could have a better time than our fathers but with doing less work than our fathers. The real position is that the economic position has so altered that we cannot live as well as our fathers did unless we work even harder than they did."

For The Marriage Of A Future Queen

By LOUIS WULFF, Correspondent at Buckingham Palace for Many Years

TWO important factors make the preparations for the wedding of Princess Elizabeth to Lieut. Philip Mountbatten at Westminster Abbey on Nov. 20 different from those made for any previous Royal wedding. First, the Princess is Heiress Presumptive to the Throne, and the marriage of a King's daughter who is also his heiress has no precedent within memory. In addition to this, Princess Elizabeth is heiress not only to the Crown of England, but, also to the crowns of Canada, Australia, New Zealand, the Union of South Africa, India and Pakistan, which invests her marriage with an international significance and renders it essential that Commonwealth interests should be taken into account at every stage of the planning.

In postwar Britain, even the wedding of the King's daughter cannot escape from the general imperative need for the saving of labor and material, and to reconcile these two conflicting factors is one of the complications that add to the task.

MAKES ARRANGEMENTS

Neither the Princess nor her parents are in the least lovers of ostentation, which makes the introduction of reasonable austerity restrictions much easier.

In complete charge of the arrangements for the wedding, apart from the actual religious service within the Abbey, is the Lord Chamberlain, 70-year-old Lord Clarendon, the chief member of the Royal Household, who wears on the tail of his ceremonial Court tunic an embroidered key, to signify that he is the keys of the Sovereign's residence are in his charge.

From time to time, when difficult points arise, or when some question crops up for which

there is no precedent to give guidance, Lord Clarendon asks the King's wishes, or consults the Queen and Princess on their wishes.

The first general order given by the King about the wedding was that it is to be a "semi-State" affair. This means that, though the full ritual of a Royal wedding will be observed, there will be less ceremonial than if it were a full State occasion. The most important and obvious effect of this ruling is that Court dress will not be worn by men guests.

MANY GUESTS

Instead, morning clothes, service uniform, or even lounge suits will be the correct wear for men, while women will wear afternoon gowns with hats. Choice of whether skirts shall be long or short is left to the discretion of the wearer.

Something like 2,000 invita-

tions are being sent out for the wedding ceremony. To whom these coveted invitations go is a matter of some difficulty. Members of the Royal Family and of the bridegroom's family attend, naturally. So do members of the British Cabinet and leaders of the Opposition, to demonstrate that political divisions do not enter into this occasion. All "Heads of Mission," which means Ambassadors, Ministers and Charges d'Affaires in London must also receive invitations as must the High Commissioners for the other units of the Commonwealth. At least one of the Commonwealth Prime Ministers will attend in person. Mr. Mackenzie King, the Prime Minister of Canada, has indicated that he will do so.

SERVANTS REMEMBERED

Other invitations go to those with certain social precedence, to representatives of various charities and other organizations with which either the bride or the bridegroom is connected, while a certain few are reserved for old family servants. The general public cannot, obviously, be admitted within the Abbey, and, because of the shortage of timber and labor, there will not be any special stands erected along the route.

When Princess Elizabeth went to Canterbury recently, she was given a copy of the new Book of Common Prayer, which contains the two alternative forms of the marriage service of the Church of England. It is for her to choose which she prefers, but there seems little doubt that she will follow the example of her great-great-grandmother, Queen Victoria, who insisted on including the word "obey" at her marriage at the Chapel Royal, St. James's Palace, 90 years ago.

Global Survey

By DEWITT MACKENZIE
Associated Press Foreign
Affairs Analyst

JUST as the democracies within the United Nations have cracked down on the tendentious obstructions of the Soviet bloc and are going ahead on their own with the business of making peace, so there is developing a similar tendency in the politico-economic war zones of Europe and Asia.

A prime example is the case of Germany, which is divided into four occupation zones—Russian, British, French and American. All efforts at drafting a German peace treaty having failed because of the split between the Russian and western blocs, and the Soviet union having refused economic co-operation to ease the chaos in the stricken country, the other three allies show marked signs of consolidating their areas and doing the job without wasting time in further futile negotiations.

This trend is being hastened by the rapidly-increasing gravity of the economic crisis. Senator H. Alexander Smith (Rep., N.J.), who is co-chairman of a joint United States congressional committee studying European economic and political problems, stated Wednesday in Berlin that it is "vitally necessary that at least the three western zones of Germany are tied into the Marshall plan."

VITAL COG

Smith said it would be desirable to include all Germany in the plan, "but the Russians won't have it and we can't wait around for the chance of Germany's unification." At the same time representative Karl E. Mundt (Rep., S.D.), who is the other co-chairman of the committee, said he believed the average American does not realize how closely Germany's economy is integrated with that of Europe and how vitally necessary it is to get Germany back on a self-sustaining basis in order to help all Europe recover.

Appropos of this situation, a recent report turned out by United States congressional and state department co-operation and originally secret, says that the Russians are the "principal obstructionists" in the Allied Control Council in Berlin and that eastern Germany (under Russian control) is "well on the way to being Sovietized." The report further says the "suspicion is now possible that the U.S.S.R. covets Austria, in order to isolate Czechoslovakia, and penetrate Italy and Germany, as well as other parts of western Europe with Communist politics and economies."

This coincides with the general belief among western observers that the Soviet-occupied part of Germany already is to all intents a Russian dominion and that Moscow is maneuvering for further westward expansion.

OVERESTIMATED

T.D.F. in the Ottawa Citizen
An educator asserts that only 2 per cent of the people do the world's thinking. We wouldn't know exactly, but on recent results we'd say the professor's estimate is away too high.

TO PROVE THEMSELVES

Winnipeg Free Press
The Moslems and Hindus asked for the privileges of self-government. Now they must show that they are equal to its duties. They have to prove that they are fit for freedom not only by the way they fulfill their own political hopes but also, and even more important, by the manner in which they deal with minority groups in the two new Dominions.

TOPSY-TURVY

The Times of London
At a time when "work or want" is the order of the day many visitors to the Zoo will look enviously at the four newly acquired sloths, animals named for their enviable ability to do as little as possible as comfortably as they can. Thanks to the initiative of Mr. Cecil Webb, the society's curator-collector, who recently brought them from South America, these creatures can be seen suspended in their cages by their toes, in the inverted position in which they pass their lives, lazily eating the greenery hanging above them. Exponents of the theory of the survival of the fittest must find it hard to explain the sloth, whose present comfortable posture and mode of life would seem to be the outcome of generation of resolutely refusing to struggle for existence. The sloth is, indeed, one of the many instances in nature of the spiv, seeming to exist for no other purpose than to nullify the good example set by the ant.

VEGETABLE LAXATIVE

For Inner Cleanliness

Are you one of those persons who is not careful about having that two bowls every day? Lack of bile causes constipation, headache, indigestion, loss of energy, that sluggish feeling. Nature has provided certain vegetable laxatives which stimulate the flow of bile. These natural non-habit-forming remedies are found in Dr. Morse's Indian Root Pills. Get a box today to help relieve constipation, give you that inner cleanliness. Be sure it is Dr. Morse's Indian Root Pills sold everywhere.

ZEBRA LIQUID OR PASTE STOVE POLISH

BABY'S UPSET STOMACH QUICKLY CORRECTED

BABY'S little "Tummy" is often easily upset. It is easily righted again, too. If you know just how to do it, let Mrs. M. S. Alway, of London, Ont., tell you: "Baby's Own Tablets are a great help at the first sign of upset stomach. During teething time or when a cold is coming on. They work quickly yet gently to carry away poisons and promote restful comfort." And Mrs. W. R. Sharp says: "I nursed my baby shortly after being alarmed over a motor accident and her stomach became quite upset. I gave her Baby's Own Tablets and she soon stopped crying and quieted down."

Equally effective for teething troubles, constipation, simple fever. Sweet-tasting easily crushed to a powder, it coaxed—promptly in action. No "sleepy" stuff—no dulling effect. Buy a box today for sickness so often strikes in the night. 25 cents.

Farmers Face \$75,000,000 Loss If Packers' Tie-up Continues

KELOWNA (CP)—A mounting wave of anxiety today is spreading among western Canada farmers and ranchers who are threatened with serious loss to more than \$75,000,000 worth of slaughter-bound livestock unless settlement is reached in the packinghouse dispute.

Drastic emergency measures have already been recommended to the federal government by the Canadian Federation of Agriculture to offset the crippling effects of the strike on its 450,000 farmer members.

At an open meeting of the directors here Wednesday, George Ross of Aden, Alta., president of the Canadian Beef Council, said cattlemen were in danger of being deprived of market outlets for between 400,000 and 500,000 head of beef cattle and an unestimated number of feeder cattle and hogs.

This livestock was intended for slaughter this year, but with Canada's major packinghouses strikebound, farmers and ranchers would be saddled with their surplus production, which they could not afford to keep.

"I don't care who settles it—either the Dominion or provincial governments—but somebody has to," said Mr. Ross.

Federation President H. H. Hannam took the same stand as he bitterly deplored the situation where farmers, who had an 80 per cent interest in the products in dispute, stood by powerless while they were being put in "an unfair position by this kind of tactics in industry."

However, Mr. Hannam said the federation would not yet urge the federal government to take over the packinghouse plants. Severe criticism of government handling of the strike came from W. T. J. Bulman of Kelowna, who charged federal and provincial governments were merely "passing the buck."

OTTAWA (CP)—Revenue Department collections from income, corporation, excess profits and inheritance taxes in the fiscal year ended March 31, 1947, amounted to \$1,435,731,759, a drop of \$199,762,947 from the 1944 wartime peak, Revenue Minister McCann announced Wednesday.

He made the announcement in releasing the department's annual report on taxation statistics. The voluminous report gave detailed breakdowns of the tax collections and also showed that the government owes the personal income taxpayers \$289,608,000. The figure represents the amount collected in 1942, 1943 and 1944 as compulsory savings. Repayment of the savings collected in 1942 is scheduled to start prior to March 31, 1948. The refunds for 1943 will be made in 1949 and those for 1944 in 1950.

The department estimated that 1,329,139 cheques, averaging \$45 each, will be mailed to cover the refunds for 1942.

TAPERED FROM PEAK

The report showed how the tax collections moved up to their wartime peak and then began tapering. In 1938, the year prior to the outbreak of the Second World War, the collections totaled a mere \$120,365,532.

It was estimated for 1946 that 2,545,809 taxpayers with incomes totaling \$4,967,116,000 paid \$624,423,000 in income tax. A total of 1,314,050 of the taxpayers had annual incomes of between \$1,000 and \$2,000. Another 542,825 of them had incomes of less than \$3,000 and some 443,000 had incomes of less than \$1,000. Only 57,770 of them had incomes of \$5,000 and over.

Heaviest contributors to the tax were single and married persons with no dependents. They represented the two largest groups of taxpayers.

Consolidation Voted For Idaho Mining Firms

WALLACE, Idaho (AP)—Consolidation of 12 Coeur d'Alene mining district companies into one firm, Day Mines Inc., was approved Wednesday by stockholders of six firms. The other six firms had approved the merger earlier.

Companies involved Wednesday were Monitor, Western Union, Stanley, Hercules, Tamarack, Custer and Crystal Lead. Shareholders of the Happy Day, Treasure Vault, Duluth, Sherman Lead, King and Dayrock companies had voted for consolidation earlier.

Henry L. Day, Wallace, will be president of the new firm, to be organized formally Oct. 1.

Strike Which Held Up Trieste Shipping Ended After 24 Hours

TRIESTE (AP)—A general strike which paralyzed shipping in Trieste's port for 24 hours ended early today.

The Allied Military Government of the new free territory

announced an agreement to call off the strike had been reached at a midnight conference attended by A.M.C. officials; leaders of the Sindacati Unici, which ordered the work stoppage; and of the moderate, non-Communist Camera del Lavoro, which refused to participate.

Both unions claimed a "moral victory" and Military Government officials made no effort to conceal their pleasure at having the strike ended. The British-American A.M.G. had feared the

work stoppage might embroil it in an east-west political struggle with the leftist labor movement. About 12,000 workers were idle during the strike.

The Military Government announcement said that under the agreement to end the strike the A.M.G. provisionally would release nine Sindacati Unici members arrested early Wednesday under accusations that they had misled workers who refused to participate in the strike. They

are to be brought to trial within 48 hours.

The A.M.G. said it further had agreed to reinstate all suspended Sindacati Unici members and permit them to return to work. The Sindacati Unici claimed its "moral victory" on these grounds; since suspension of some of its members had been given as the technical basis for the strike.

Thirty-one persons were arrested by Military Government police during the 24 hours of the strike for bomb-throwing and

other alleged illegalities resulting from the work stoppage.

25 More Douks Sent Up For Jury Trial

NELSON (CP) — Twenty-five more Doukhobors will stand trial at the fall assizes opening here Nov. 10 on charges connected with recent Doukhobor troubles in the West Kootenay section.

The 25 were in custody today after repeating the stand of 15 others earlier in the week, of refusing to elect trial when appearing in county court at Nelson. "Jesus Christ Himself did not elect His own trial," they declared before Judge E. P. Dawson.

The 25 were committed for trial following preliminary hearings last week on charges of riotous burning in connection with the Aug. 23 destruction of a Doukhobor community house at Shoreacres.

Beef To Relieve Shortage Of Meat

WILLIAMS LAKE, B.C. (CP) — Ten carloads of beef cattle have left this area for coast independent packing houses, it was announced here.

A recent federal government ruling lifting restrictions on country slaughtering has permitted cattle raisers to secure a regular outlet to country slaughterhouses, thereby helping to ease the growing meat shortage throughout the province.

Concerns getting the beef are the Pacific Meat Co., Vancouver, and Banner Farms at Langley Prairie.

All species of bear except the heaviest are able to climb trees.

Information For War Veterans

Third of a series of eight articles released by the Department of Veterans' Affairs deals with items most frequently asked on re-establishment credit by British Columbia war veterans.

In applying credits on the purchase of a business or partnership, it is necessary for the veteran to invest his own money along with it, the article says. "Veterans must invest at least \$1 of their own funds for each \$2 of credits." The same applies in the use of the credit money in purchasing homes.

All veterans must undertake to devote the whole time to the business purchased with the assistance of credits. They cannot be engaged in another occupation on a part-time basis.

The answer is "no" as to whether credits can be used to purchase shares in a limited liability company.

Credits can be used as working capital in an already established business, but invoices should be submitted with application and on approval payment will be made direct to the vendors. It is not necessary for a veteran to put up any of his own funds in order to use credits as "working capital."

The credit cannot be used to make a partial payment on a conditional sales contract for furniture. When re-establishment money is paid, the vendor must certify that full title is vested in the purchaser.

The answer to the often-asked question can a widow of a member of the armed forces killed in action use her late husband's credit for her own use or that of her family? This—No, there is no credit available in these cases. If, however, the widows of veterans reside in Canada and have not remarried, the credit is available to them . . . if their husbands died after discharge.

May a veteran who has applied for qualification under the Veterans' Land Act administration apply to use re-establishment money? The answer is no. He must first cancel his application to V.L.A. and receive a letter confirming the cancellation. This letter must be attached to his application for credits.

Truman Invites Congress Chiefs

NOXZEMA LIMITED BOUDOIR SPECIAL

Act Now to Get
93¢ JAR FOR ONLY

TAKE THESE 4 SIMPLE STEPS TO A LOVELIER COMPLEXION

Try new, sensible beauty treatment now. For a smoother, lovelier complexion, take a hint from thousands of attractive women who have stopped fussing with elaborate treatments, countless jars and bottles. Turn to one simple skin cream—a medicated cream—Noxzema. It's specially formulated to help heal unattractive blemishes, to soothe and soften rough, dry skin. The simple, sensible Noxzema beauty routine is easy to follow and it gets results—surprisingly fast!

FOR DAILY COMPLEXION CARE...AND HAND CARE

Of course you know how medicated Noxzema helps heal ugly blemishes and smooth flaky, roughened skin. But it's also an ideal beauty cream for normal complexion! That's why so many professional models and actresses make Noxzema a daily habit. It helps keep your face soft, smooth, radiant!

Since Noxzema's medicated formula heals and soothes painfully chapped hands, doesn't it make sense to use Noxzema as a daily hand cream too? Get the habit of smoothing on Noxzema frequently during the day—and you can say goodbye to "housework hands." Try Noxzema today.

Huge Crops In Radioactive Soil At Nagasaki Reported

By Associated Press
A report from Tokyo of huge crop yields in radioactive soil at Nagasaki brought expressions of surprise and some skepticism today from United States atomic scientists.

Increases of from 50 to 300 per cent over normal yield were reported to the Kyodo news agency by Takeo Furuno, Japanese agricultural expert who is conducting experiments in the centre of the blast zone just outside atom-bombed Nagasaki city.

In Chicago, Dr. Austin M. Brues called the report "interesting" and said "anything is possible." He added he was acquainted with Furuno and considered him a competent agriculturist. Dr. Brues, a University of Chicago atomic scientist, visited Nagasaki last winter.

Dr. George Gamow, Washington, D.C., scientist, said that normally radioactivity would hinder rather than help the growth of crops and added that the Nagasaki report "looks very strange."

Another Washington scientist, Dr. Ugo Fano, said: "If it is true, it is a phenomenon not generally known to science or it would have been tried before."

Dr. Fano, a member of the Federation of Atomic Scientists, told a reporter:

"Perhaps the explanation is that the decayed matter in abandoned ground around the blast area acted as a fertilizer."

Dr. Stafford L. Warren, dean of the medical school at the University of California at Los Angeles, said he did not believe there was enough radioactivity anywhere in the bombed areas to account "for the bumper crops reported from Japan."

(Furuno reported the wheat crop was about twice normal and the cotton crop three times average. He said pumpkins, sugar beets, tomatoes and similar produce showed a 50 per cent increase over previous production and that some freak development in the plants was noted).

"It would be easier to explain

the increases on local weather conditions, planting in burned off areas or that the ground had rested for some time and recovered a good deal of its fertility," Dr. Warren said.

Dr. Warren was wartime chief of the medical division, Manhattan Project, and went to Japan to investigate the physiological condition of the people in atom-bombed areas.

U.S. Railway Express Charges To Increase

WASHINGTON (AP)—The United States Interstate Commerce Commission Wednesday authorized an increase in railway express charges. It is estimated the increase will bring in \$61,000,000 in annual revenue.

The authorization is good for one year "or until further order of the commission."

The approved increases are on a sliding scale ranging from 53.5 per cent for short haul traffic down to 1 1/2 per cent on long-distance business.

Railway express was authorized to put them into effect on 10 days' notice.

Fireman Hero

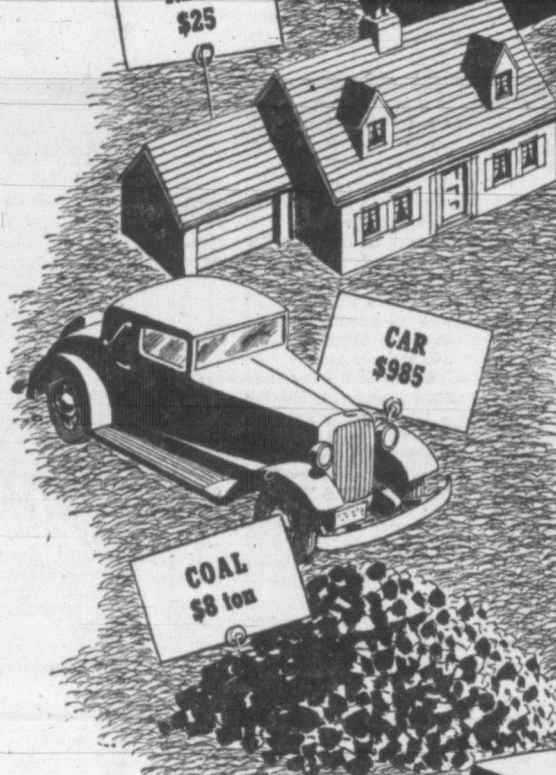

MASSENA, N.Y. (CP)—Fireman Mike Prochnicki of Fort William, Ont., played a hero's role today as he helped rescue two of his crew mates after they had jumped into the St. Lawrence River from the burning coal carrier Milverton early Wednesday.

He swam ashore but returned to the water to rescue two injured mates who were removed to the hospital here.

ized to put them into effect on 10 days' notice.

Do you remember
THE LOW PRICES
of '32?

Rent, 6 room house - - -	\$ 25.00
New Car, light - - -	985.00
Coal, per ton - - -	8.00
Butter, per lb. - - -	.24
Eggs, per dozen - - -	.25

1932 newspapers read like a fairy tale, with loin of pork and breast of veal at 17c a pound. Back bacon at 25c and tea at 27c a pound. Shipyard lumber at \$8.00 to \$11.00 a thousand. A sea cruise to San Francisco and return with stateroom and meals for \$31.50. Almost unbelievable! Yet, that was only fifteen years ago... back when Perfex was formulated and first marketed at the SAME price as you pay TODAY. There's a reason!

Yes, of course the cost of producing Triple-action Perfex has increased tremendously during the past few years along with everything else. Increase after increase has been directly absorbed by the makers of Perfex... you paid no more. Recently, costs of basic chemical ingredients jumped another 5%... but you pay no more for Perfex. And just the other day the cost of bottles increased 10%... and still you pay no more for Perfex. Actually, in effect, you have been buying Perfex for less and less in a rising market.

You have made this possible... you and tens of thousands of Perfex users like you. Fortunately, as costs mounted, so did the popularity of Perfex... the resulting economies of mass production and distribution off-setting the cost increases. That's why, TODAY, you get better value than ever when you buy Perfex... it bleaches, it sterilizes, it deodorizes.

PERFEX still at the same low price and less!
... less in the large economy 'size.

Editors Hear Talk On Importance Of Forest Conservation

Canadian weekly newspaper publishers Wednesday night heard pleas to support a program of sound forest conservation and careful utilization to bring future prosperity to the Canadian nation.

The plea was made by Lands and Forests Minister E. T. Kenney at a provincial government dinner Wednesday night at the Empress Hotel. The dinner followed a reception tendered the 450 visiting publishers by the government.

Mr. Kenney, who is also acting minister of labor for B.C., stressed to publishers the importance of the paper production industry to the Canadian economy and described the forest resources as Canada's greatest renewable resource.

"Despite its youth, the pulp and paper industry has come to occupy a dominant position in the economy of our country," said Mr. Kenney. "At various times it has led all other industries in one or more phases of production, investment or employment. "From 1925 to 1934 it led the Dominion in gross value of production. For many years it was first in capital invested; first in net value of production; and first in wages and salaries paid."

During the war years, he continued, other industries advanced temporarily into higher positions but even then Canada's paper production played a vital part in maintaining Canada's purchasing power abroad.

VITAL IN WAR

"The industry also made other important contributions to the Allied cause beside that of a favorable trade balance," he said. "Pulp and paper were essential in the advancement of the war effort."

In B.C. the paper and pulp industry was born about 1912 when the first real commercial production of paper was made.

Estimating that weekly newspapers enter 1,500,000 Canadian homes, and were available to half the population of Canada, Mr. Kenney said that freedom of the press, which was conceded as the greatest safeguard of liberty any democracy could have, had been won, not by casual efforts but at a considerable price.

"You are making a contribution to the people and the country which cannot be duplicated by any other medium; you are rendering a service that cannot be usurped by any other medium," he said. "But with all your service, with all your power, where would you be or get without newsprint?"

Personal Notes

Miss Vera Critchard has returned to the city following a visit with friends in San Francisco, Santa Cruz, San Jose, Palo Alto, and Oakland, Calif.

Mrs. James Hogg of "Jesmond" Gordon Head, has returned to her home after a month's visit with friends in Fullerton, Orange County, California, where she attended the wedding of Miss Kay Watson of Bournemouth, England, to Mr. Merrill Vantry of Long Beach.

Guests attending the marriage of Miss Ronnie Mark to Mr. John Derry over the week-end included Mr. and Mrs. Jack Daggett, Mr. and Mrs. R. Gibson, Mr. Michael Hretchka, Mr. George Wong and Mr. Harry Farmer, all of Vancouver; and Mr. and Mrs. A. W. Mark Jr, New Westminster.

Guests from Vancouver attending the marriage of Miss Edith Smith to Mr. George Grossmith, which took place Sept. 20, included Mr. and Mrs. Herbert Webber, uncle and aunt of the bride, Mr. William Webber, Mrs. J. Westwood and Miss June Johnson.

Miss Bobbie Murray, October bride-elect, was honored by Miss Isabel Clay and Miss Gwyneth Griffith at a kitchen shower held at the home of the latter's parents, Mr. and Mrs. E. W. Griffith, Denison Road. Invited guests were girls of the Oak Bay High School graduating class of 1942. Mrs. Jack Wallace presided at the urns.

Mrs. G. Finn and her daughter Dorothy entertained at a miscellaneous shower in their home, 2628 Graham Street, in honor of Miss Joan Gibbons, a September bride-elect, Cossage bouquets were presented to Miss Gibbons and Mrs. Finn. Invited guests were: Mesdames J. A. Greenidge, B. G. Giles and D. Johnston, and Misses L. Foster, D. Millard, M. Dauphin, G. Isbister, M. Scouler, S. Burns, L. Mickleborough, K. Hale, J. Fitzsimmons, D. Parker, M. Smith, O. Malr, L. MacDonald, D. Gleave, J. Burns, G. Adams and L. Conway.

Vancouver Home For Bridal Pair, Ronnie Mark, J. Derry

Following their marriage Sept. 20 at the Bishop's Palace, St. Andrew's Cathedral, Mr. and Mrs. John Reginald Derry left for their honeymoon in Vancouver, where they will make their home, and other points on the mainland.

Father J. L. Blanchfield heard the marriage vows of the bride, the former Mary Veronica "Ronnie" Mark, daughter of Mr. and Mrs. A. W. Mark, 2663 Fifth Street, and groom, son of the late Mr. and Mrs. John Harold Derry, Fredrickton, New Brunswick.

An ivory satin period gown, fashioned with circular net yoke and front skirt panel enriched in seed pearls, sleeves pointed at the wrists, and full skirt gracefully in train was worn by the bride, given in marriage by her father. Her full embroidered veil was

Mr. Glen Moir, son of Mr. and Mrs. P. A. Moir, Beach Drive, has left to continue his pharmaceutical studies at the University of British Columbia. His brother, Mr. David Moir, has returned to Naramata, B.C., to resume his position as principal of the Naramata grade school.

Mr. and Mrs. R. Helland, Miss Audrey Helland, Mr. Douglas Helland of Ashcroft, and Mr. Clarence Nordquist, Aneroid, Sask., are spending an extended vacation in the city, guests of Mr. and Mrs. T. C. Penson, Esquimalt.

Mr. W. G. Carder, a graduate of McMaster University in Hamilton, Ontario, who has been preaching during the summer months in the Peace River district, has been visiting his relatives, Mrs. M. Tribbey and sisters at 38 Paddon Avenue, prior to attending the Baptist Divinity College at Berkeley, California.

To honor their daughter, Miss Doris Flak, on the occasion of her 19th birthday, her parents, Mr. and Mrs. R. Boyle, entertained Wednesday evening at a surprise birthday. Games, singing and dancing were enjoyed by the following guests: Mr. and Mrs. R. Helland, their son Douglas and daughter Audrey, of Ashcroft, Misses Penny Martin, Eileen McBurney, Lucille McBurney, and Messrs. G. McEwen, Dale Bradley, and Clarence Nordquist, Aneroid, Sask.

Miss Paddy Greenwood, October bride-elect, was honored at a kitchen shower given by Mrs. H. P. Collins at her apartment, 1020 Pandora Avenue. Cossage bouquets were presented to the bride-elect and her mother, Mrs. D. Greenwood. An ecrú lace cloth covered the tea table, which was centred with an amber bowl of white asters and sweet peas. Brass candelabra held tall amber tapers. Mrs. Greenwood presided at the coffee urn. Invited guests were: Mesdames K. N. McLeod, Kathleen Millard, Helen Somers, A. J. Collins, V. J. Di Castri, A. R. Heater, A. J. McQueen, R. A. Heater, Gordon Miller and J. W. Buckler.

held by a coronet headdress, and she wore a family heirloom, a gold crest ornamented with pearls. Her arm bouquet was of calla lilies.

Similar full-skirted gown of aqua green and peach nylon sheer over taffeta were worn by bridal attendants Miss Helen Zdanovich and Miss Ruth Veitch. Both wore velvet coronet head-dresses with chapel veils, and carried bouquets of pastel-shaded chrysanthemums, carnations and gladioli.

Jerry Mark, brother of the bride, attended the groom. Dave Munro ushered guests to their seats. Madonna McCabe was the soloist and Bill LeVert played the wedding music.

A reception for 100 guests followed at Strathcona Hotel. Mrs. Mark stood with the couple as they received guests. Toast to the bride was given by Jack Daggett, Vancouver.

Lighted tapers in silver holders and red rosebuds decorated the bride's table where the three-tier cake, wreathed with white tulle, was centred.

The bride changed to a three-piece tailored grey gabardine suit, with which she wore a large-brimmed navy blue hat, matching accessories, and cossage bouquet of red rosebuds and swan-sonia, for her travelling ensemble.

Plan Joint Tea—At recent meeting of Colfax No. 1 and Carne No. 45 Rebekah Lodges, it was decided to hold a joint tea, Oct. 8 at 3 in the I.O.O.F. Hall, in aid of the Provincial Cancer Fund.

Running Country Weekly No Dull Proposition

Left to right: Jean Collins of Glaslyn, Sask.; Elsie Betts of Hughenden, Alta., and Mrs. W. A. Nelson, assistant editor of the Medstead Herald, Sask., enjoy the Empress gardens before attending the afternoon session Wednesday of the Canadian Weekly Newspapers' Association convention.

Running a country weekly may sound like a dull proposition to those on the outside, but for the combination reporter-editor-advertiser-job printer and book-keeper on the inside, it's the "only job for me."

Take Mrs. W. A. Nelson of the Medstead Herald, Medstead, Saskatchewan, for example. At present attending the Canadian Weekly Newspapers' Association convention in the Empress Hotel, Mrs. Nelson took time off today to discuss the paper of which she is assistant editor, in a town that numbers "at the outside 300 people."

"I cover everything and it really means chasing around after the news," she said. "It helps you keep a lively interest in everything that is going on, even though reporting for it is nothing like working for a city paper."

FROM ENGLAND

Miss Elsie Betts, brother of H. W. Betts, until recently owner and editor of the Hughenden Record at Hughenden, Alberta, was all interest for anything connected with newspapers. She left her home in Norwich, England, in July and flew to Canada to make her home in Alberta. Besides being enthusiastic about Canada and Canadians, she said:

"You know I've learned more about the people and town in the few weeks I have been in Hughenden than I learned in Norwich all my life."

"Of course, over there they would call it interfering in someone else's business; here it is news."

It was a first convention for Miss Jean Collins of the Glaslyn Chronicle, Glaslyn, Saskatchewan. In the advertising and job printing end of the paper, Miss Collins, who has been on the Chronicle for a year, likes the work.

KEEP INTERESTED

"You keep interested in everything," she said.

Two of the hardest-working women at the convention are Miss Frances Pengilly of the Abbotsford News and Mrs. Jessie McCandless of the Canadian Weeklies' central office in Brampton, Ontario.

"I love small towns and have been working for seven and one-

half years in the bookkeeping end of the Abbotsford News, so you can see I like my work," said Miss Pengilly, who was assistant registrar.

A registrar at four provincial conventions, this was her first national. Mrs. McCandless, registrar in charge, did not find her job of looking after the needs of the delegates a wearisome one.

"Though I am not in the writing end, I think everything about newspapers is interesting. It's the greatest business in the world."

Clubwomen's News

Building Fund—The sum of \$148.50 netted at a garden party was turned over to the building fund at a meeting of the W.A. of Belmont United Church held in the school room. Members planned an intensive campaign for visiting the sick and new-comers with Mrs. W. B. Johnston as convener. A Thanksgiving tea and free-will offering has been

arranged for Oct. 15, instead of the usual Thanksgiving supper. Rev. C. R. McGillivray conducted the devotional.

Valentine Girl—Plans for a chapter Valentine Girl were discussed at a meeting of Xi Chapter, Beta Sigma Phi held at the home of Miss N. Edwards, 217 Government Street, with Miss Eleanor Williamson, president, in the chair. Plans were also laid for forthcoming teas. Miss Norma Wood conducted the cultural program.

Annual Pound Party For Orphanage October 2

Some of the 45 children at present in the B.C. Protestant Orphanage, corner of Cook and Hillside, who will sing at the annual Pound Party to be held at the home October 2, are pictured above. Some of the children will give choral numbers and others will sing solos. Tea will be served. The orphanage, which is supported entirely by public contributions, will accept donations and supplies of every kind at the annual Pound Party. Mrs. Walter Luney, president of the Ladies' Board of Management, will receive the guests and those wishing to see the home will be shown through by the members of the committee.

Gets D.V.A. Job

OTTAWA (CP) — Miss Elizabeth Smellie of Ottawa, former chief superintendent of the Victorian Order of Nurses, has been named Western Regional Nursing

Consultant for the veterans' department, it was announced today. She replaces Edna E. Rossiter of Comox, B.C., who has been granted leave of absence for post-graduate nursing studies.

Jubilee W.A. Vote \$900 For Oxygen Tent

W.A. to the Royal Jubilee Hospital voted \$900 to the hospital to buy an oxygen tent, which they felt was urgently needed, at their meeting with new president, Mrs. J. D. Hunter, in the chair. The auxiliary also supplied \$600 for the purchase of an anaesthetic machine.

Preliminary arrangements were made for the annual linen shower to be held Nov. 5, with Mrs. J. L. Hobbs as convener.

Mrs. P. C. Dillabough reported that 128 pieces of sewing were completed during the summer months. Mrs. W. G. Thorpe told members of visits made to the hospital by her committee.

Stamps totaling 37 pounds, were cut and shipped, Mrs. R. H. Oliver reported, and announced that all stamps turned in to her would be shipped as soon as possible.

New members welcomed to the auxiliary included Mrs. Maude Ross, Mrs. A. S. Woolard and Mrs. Hewlett Smith.

To Address Women's Canadian Club

Mrs. Nancy Hodges, M.L.A., will discuss "Woman's Responsibility in the World Today," in her address to members of the Women's Canadian Club at their first meeting of the fall season in Empress Hotel ballroom, Tuesday afternoon at 3.

Mrs. H. B. Bate To Open Kiddies' Fashion Show

Mrs. H. B. Bate, president of the Senior Board of the V.O.N., will officially open the Children's Fall Fashion Show, to be held in the lower ballroom of the Crystal Garden Friday afternoon at 3.

The latest in children's clothes from smart play suits to pretty

dressess will be worn by the 13 young models.

Those modelling will be: Judy McEwen, daughter of Mr. and Mrs. Bunk McEwen; Jill and Anne Lowrie, daughters of Mr. and Mrs. Don Lowrie; Jill Williams, daughter of Mr. and Mrs. Louis Williams; Bobby Flagate, daughter of Mr. and Mrs. David Flagate; Peter and Karen Child, son and daughter of Mr. and Mrs. J. F. Child; Judith and Wendy Norris, daughters of Mr. and Mrs. Fred Norris; David Hind, son of Lieut. and Mrs. R. R. Hind; Tony Else, son of Mrs. May Else; Barbara Rose, daughter of Mr. and Mrs. Gerald Rose, and Robin Maunsell, daughter of Mr. and Mrs. John Maunsell.

Autumn Styles—Green is important in the fall picture, but best is the dark green that is to be found in all fabrics, particularly wool.

Garden City Church Scene Of Wedding

Garden City Church was decorated with chrysanthemums, michelmas daisies, gladioli and dahlias in autumn-hues for the marriage Sept. 20, of Miss Edith Evelyn Eleanor Smith, only daughter of Mr. and Mrs. F. W. Smith, 651 Canterbury Road, and George Raymond Grossmith, youngest son of Mrs. S. Grossmith, Craigdarroch Road.

Rev. J. Currie Thompson performed the ceremony for which Mr. Goodwin played wedding music. Mrs. J. Westwood sang "O Promise Me."

Fragile lace inset in the skirt front and trimming the sweetheart neckline added beauty to the bridal gown of white satin, fashioned with long sleeves pointed at the wrists, fitted bodice and flared skirt, slightly en train. Her full net veil, held by orange blossoms, cascaded over her gown, and she wore her groom's gift, a double strand of pearls. White chrysanthemums and pink rosebuds were arranged in her bouquet. Mr. Smith gave his daughter in marriage.

Bridal attendants in their colorful full-skirted gowns were Mrs. R. C. C. Smith, matron of honor, in palest blue sheer, and Misses Violet Durk and Miss Rose Smith, in pale pink sheer and light green respectively. All wore heart-shaped headresses and embroidered shoulder-length veils to match their gowns and carried arm bouquets of chrysanthemums and carnations.

Two little flower girls in pink and blue gowns were nieces of the bride, Shirley Smith and Trudy Smith. They carried chrysanthemums and rosebuds in colonial posies, and wore bandeaux in pink and blue marguerites in their hair.

R. C. C. Smith, brother of the bride, was best man. Ushers were Fred Grossmith and G. H. Smith.

Herbert Webber gave the toast to his niece at a reception at the K. of P. Hall. The couple, standing beneath a decorated arch, received guests, assisted by their mothers. The three-tier wedding cake was flanked by white candles in crystal holders and vases of chrysanthemums and carnations.

Mr. and Mrs. Grossmith are traveling in California on their wedding trip and will return to the city to make their home. The bride wore a pale blue suit with nailhead trim, brown hat, with similar trim, brown accessories and corsage bouquet of gardenias.

Married Women Must Work In France

PARIS—Recent investigations show that a large number of French women, including married women and mothers of families, are working in industry, trade and professions in order to increase the family income.

"It takes the salaries of two people to afford a family in France today," a working French mother said. "I'm told that in some countries a woman looks forward to giving up her job when she gets married, or at least when she becomes a mother. That's a luxury we can't afford any more."

At Lyons, for example, in the establishments where most of the labor employed is female, 90 per cent of the women are married and in many cases have children. At Nantes, 75 per cent of the female workers in industry and 25 per cent of the female office employees are married. More and more women are preparing themselves for social work and for the liberal professions or are taking general technical training, anticipating that they will find it necessary to continue working after marriage.

Hand Massage For Young Musician

If your musically inclined child is given early training on the piano or other hand-played instruments, watch out for those little fingers. They can be made stubby by early thumpings on musical instruments.

The best safeguard against possible stubbiness, experts say, is daily massage designed to mould fingers into shapeliness.

A child will suffer massage with better grace and more sustained interest if you'll turn the routine into a little game. Intriguing to a child is the game of forcing on a pair of imaginary gloves. She will even force on her own "gloves"—show her how you get on your too-tight ones by pushing fingers from tips to palms—if you'll use a hand-cream for the game.

One of the fluffy hand creams, free of known irritants or allergens, is recommended for use on sensitive young skin. Such a cream, of course, used on any pair of little hands, helps to alleviate the drying effects of frequent washings and begins to inculcate a habit of good grooming that will stake out future claims to beauty.

Enhances Jewelry

Wear your tawniest make-up if you want to enhance the gleam of your gold jewelry or golden-hued gown.

To plot a better match between jewels and complexion, make up with powder, lipstick and rouge color-co-ordinated to sun-gold shades. If your skin is tanned, so much the better. You'll have an advantage over pale-skinned beauties. Even coppery skin, however, needs the flawless grooming supplied by a tinted foundation that evens up tone and a matching powder that adds a beguiling finish.

Carry the golden touch to your lips with your tawniest lipstick, one that shows not a trace of

blue in it. If you need to high-light cheekbones, blend on rouge of the same shade as your lip-stick.

"From now on I'm going to be a good telephone neighbor"

"Yes, indeed! I realize now how we party-line users can provide better telephone service for ourselves by just being a little more thoughtful and considerate in the use of our telephones."

"So I've made up my mind to give a 'better deal' to the other people who share our line. First, I'm going to make my personal telephone calls shorter; and second, I'm going to cut down on the number of those less-important calls."

"In short, from now on I'm going to be a good telephone neighbor."

Survey Discloses Hollywood Fairly Tame After All

By BOB THOMAS

HOLLYWOOD (AP) — The church-going, smoking, divorcing, night-clubbing and other habits of Hollywood citizens have been polled and the results indicate the town is a fairly tame place. Or so the figures say.

The quizzing was done by the Hollywood Reporter, and of the 1,036 of the trade paper's readers who answered, 70 per cent are in show business. Eighty-five per cent have two children.

The divorce mill has claimed 29.7 per cent of the quizees, whereas the Reporter quotes the national average (Bureau of Census report) at 40 per cent. Seventy-seven per cent of the readers are married and 42 per cent have two children.

DEMOCRATS IN MAJORITY
Democrats claim a majority of those polled, pulling a total of 56.4 per cent. The Republicans draw 43.2 and the remaining 0.4 is spread among other parties, presumably Communist, Prohibitionist, etc.

Hollywood firmly believes the rest of the United States has the wrong impression of Hollywood. At least that's what 85 per cent indicated in the poll. Thirty per cent don't use tobacco and 14.5 guzzle no liquor. Forty-two per cent visit a night club but once a month.

It may surprise you to learn

Publishers Of Best Weeklies In Canada

Winners of shields and cups in the 'Better Newspapers' Competitions conducted by the Canadian Weekly Newspapers' Association are shown here, left to right: Hugh Templin, Fergus, Ont.; Ralph E. White, Kamloops; Norman Maclean, Elmwood, Man.; Katharine A. Marston, Elora, Ont.; John A. Marsh, Amherstburg, Ont.; Mrs. C. V. Charters, Brampton, Ont.; E. G. Quick, Weyburn, Sask.; Edgar Dunning, Ladner; R. W. Tuckwell, Pilot Mound, Man.; A. L. Miller, Jarvis, Ont., and Sam Wilson, Weston, Ont.

what the favorite hobby is. It's reading. And photography ranks second. Twenty-nine individuals possess yachts and 83 own television sets. A mere 10 per cent—and this should upset legend—have swimming pools in their back yards.

DRESS WELL

Hollywood dresses well, says the survey. Eighty-one per cent of the boys have some of their clothes custom-made and 45.5 per cent own five to nine suits. Fourteen gents replied they have over 40 suits!

Hollywood is a land of immigrants, only 8.5 reporting they previously lived on the Pacific coast. The largest percentage, 32.7, came from the middle Atlantic states and 6.4 came from outside the United States.

And look at the educational figures—35.5 per cent were graduated from college, 36.1 more attended college, and 13.9 got past high school graduation. Of course it could be that they're the ones who like to fill out polls.

DEEP LOSS

The loss of Harry Carey will be deeply felt around Hollywood.

Ralph E. White, publisher of the Kamloops Sentinel, displays the coveted Mason trophy, won by his newspaper, judged the best Canadian weekly with a circulation of 2,000 or more. The Kamloops Sentinel had previously won the award. Since the war the newspaper has been published as one edition a week, its volume being 20 pages.

He and his wife, who was always with him, were familiar and friendly figures on movie sets. Once he told me his secret of success as an actor: "Always say a line with your eyes before you say it with your mouth."

CAPITOL THEATRE

William Holden had no wardrobe problems for his current role in Paramount's romantic comedy, "Dear Ruth," now at the Capitol Theatre. He had only to go to his closet for the Air Corps officer's uniform he wore for nearly four years, since he plays a soldier on home leave in the film version of the Broadway stage hit.

The picture co-stars Holden with lovely Joan Caulfield and features Billy De Wolfe, Edward

Arnold, Mona Freeman, Mary Philips, Virginia Welles and Kenny O'Morrison.

Thousands Of Women Die From Cancer—New Hope Given

Of all cases of advanced cancer which have been treated by doctors in the past, about three out of four proved fatal. Cancer may strike an otherwise healthy woman between the ages of 20 and 80. In its early stage when it could be cured fairly easily, there are often no danger signs, no symptoms of disease. No sign will be visible to the doctor's eye. "Cancer of the Womb," an article in the October edition of Woman's Home Companion Magazine, will give Victoria women new hope, for it tells of a new test that is 97 per cent accurate. If you have ever thought you may have cancer—read the facts in this enlightening article. The Woman's Home Companion Magazine is now on sale at your magazine dealers and is distributed on Vancouver Island by Lovick's News Agency, Victoria, B.C.

Outlaw Story On Rio Screen

Universal's "The Daltons Ride Again," is the current attraction at the Rio Theatre.

The fabulous story has been filmed with all the skill of Hollywood's thrill purveyors. Headlined in the cast are such players as Alan Curtis, Lon Chaney, Kent Taylor and Noah Beery, Jr., in the roles of the renegade brothers.

Martha O'Driscoll appears as the sweetheart of the only surviving Dalton, Emmett, who lived to win respect.

ROYAL THEATRE

Marta Mitrovich is happier than she ever believed it possible for her to be.

The actress plays an important featured role in Warner's "The Unfaithful," the Ann Sheridan-Lew Ayres-Zachary Scott starrer at the Royal Theatre.

Miss Mitrovich was born in Yugoslavia, and has lived in Italy, France, Switzerland, Chile and England.

ST. HELIER, Channel Islands — Thirty-six thousand holiday-makers have paid \$650 (\$2,600) to see a German-built underground hospital here.

ANN SHERIDAN, LEW AYRES AND ZACHARY SCOTT, starring trio in "The Unfaithful," now showing at the Royal Theatre.

PLAZA THEATRE

Three novels and two short stories from the pen of Ernest Hemingway, master of simple, tight-lipped action, have been made into motion pictures. The latest Hemingway yarn to reach the screen is "The Macomber Affair," the hit drama now at the Plaza Theatre. Starring Gregory Peck, Joan Bennett and Robert Preston, "The Macomber Affair" is an adaptation of one

of Hemingway's best short stories, "The Short, Happy Life of Francis Macomber."

5 Japanese Hanged For War Atrocities

GUAM (AP) — Five Japanese, including Lt. Gen. Yoshio Tachibana, walked stolidly to the gallows Wednesday night and paid for crimes of cannibalism, torture and murder of United States prisoners.

The five were convicted by a military tribunal on Guam of some of the most fiendish crimes ever perpetrated in time of war.

First to drop through the trap was Gen. Tachibana, convicted of eating the flesh and livers of U.S. fliers captured on Chichi Jima. The fliers were tortured and beheaded at his order.

Next was navy Capt. Masaharu Tanaka, convicted of murdering seven U.S. prisoners of war at Truk by stabbing them with a samurai sword.

The third and fourth Japanese to mount the gallows were navy Capt. Shizo Yoshii and Maj. Sueo Matoba, convicted with Tachibana of cannibalism on Chichi Jima.

The last to die was Tadao Igawa, inspector of Japanese civilian police on Guam, convicted of decapitating a Guamanian.

UNION OUTLAWED
MONTREAL (CP) — The Quebec Labor Relations Commission in a surprise move Wednesday revoked the bargaining rights certification of eight locals of the United Packinghouse Workers of America (C.I.O.-C.C.L.) now on strike in the meat-packing industry.

Thus the locals no longer have further legal right to make representations to the companies or the commission.

Hard Way or Easy Way — WHICH — makes the Best coffee?

1 The Hard Way — True! You can get good coffee this way, but—you must wait for it to perk or drip! You have messy coffee grounds! And—always—you have a pot to wash! Now—the hard way is out of date because...

2 The Easy Way — gives you the best coffee you've ever tasted! Yes! Best ever or your money back! And besides—There's no waiting for perk or drip! No grounds to mess with. No pot to wash. Just the grandest coffee ready instantly! Made only with Borden's New Instant Coffee!

The new easy way means economy as well as convenience with best flavour!

Borden's
INSTANTLY PREPARED
COFFEE

Borden's New Instant Coffee is a perfect blend of the finest coffees grown!

A special process captures its roaster-fresh goodness at flavour peak and saves all of it for your enjoyment.

Each jar of Borden's makes at least as many cups as a pound of ground coffee. It is 100% coffee. Not a "coffee product". Nothing's added! That's why it goes so far! That's why it tastes so grand!

Try Borden's for the coffee surprise of your life! Your grocer has it now! Costs only about 1c a cup!

MONEY BACK FLAVOUR GUARANTEE!
Use at least half a jar of Borden's. Then, if you don't agree it tastes better than your favourite ground coffee, return the jar with the unused contents and we'll cheerfully refund your money. The Borden Company, Limited, Spadina Crescent, Toronto 4.

"If it's Borden's, it's Got to be Good!"

Oak Bay Firemen Have Busy Day

Rubbish fires, for which no permits were authorized "and would not be granted in any case for afternoon and evening periods because of the general dryness at this time," said fire officials, were blamed for two of a series of fires in Oak Bay municipality Wednesday.

At 3 in the afternoon the Oak Bay Fire Department attended at the end of Runnymede Avenue where a barn half-full of dry hay was consumed by flames in a holly orchard. Children playing with matches are said to have started an Island Road bush and

grass fire at 6, which engaged firemen for half-an-hour.

The Willows race track grandstand was in danger for a time last evening around 8 when grass near it took fire. While no permit was issued there for a rubbish fire, the department said today it figured it was this type of blaze getting out of control which started the grass. Before returning to the station the men and engines had a call to put out a bush and grass fire at Lansdowne and Lincoln. Shortly after their return another grass fire was put out at the Willows grounds, this time near the horse stables. Here again fire department officials said they believed a rubbish fire was the source of the trouble.

Standing 'Em On Their Heads

George McAfee of the Bears literally was stood on his head when tackled by an Eagle not in this picture in the first quarter of the first professional football contest ever staged at Philadelphia's Franklin Field. Al Wistert, left, and Duke Maronic are on hand to make sure the speed merchant does not bounce back on his pins. Chicago edged Greasy Neale's outfit, 13 to 10, in a benefit exhibition game played in scorching heat before 61,000.

Frank Boucher Hopeful N.Y. Rangers Will Climb

Frankie Boucher, gazing at this season's crop of Rangers at Lake Placid, N.Y., was optimistic. "I feel that we will climb another notch or two in the National Hockey League this season," declared Frankie, qualifying it a bit by saying "we've a long-range program ahead." The New Yorker, fifth last season, spent the four previous years in the cellar of the six-team circuit. Newcomers Buddy O'Connor and Frank Eddolls, whom Rangers obtained from Montreal Canadiens in exchange for Hal Laycoe and Joe Bell, are partly the reason for Boucher's optimism. The slim centre and the chunky defenceman are training well.

Gaye Stewart of Fort William, Ont., a disappointment with Toronto Maple Leafs last season after his previous prize-winning rookie year, looks to be heading for a big comeback. He's the leading scorer in the Leafs training sessions at St. Catharines, Ont., with seven goals and 11 assists in three days of drill. Stewart is patrolling left wing on a line with Gus Bodnar and rookie Tod Sloan.

CANADIENS' NEW LINE

Coach Dick Irvin feels he has come up with a potent new line for his Montreal Canadiens in Bobby Carse, Johnny Quilty and Jimmy Peters. Carse, up from Cleveland for an N.H.L. comeback, seems to be just the linemate for the other two, and the trio scored nine goals in two days' practice games.

Badly in need of defencemen, coach Johnny Gottselig has come

up with at least a couple of likely-looking prospects at Chicago Black Hawks camp in Regina. They are Joe Conn, who played with Vancouver Canucks last season, and Art Michaeluk, a former Calgary Stampeder. Holdout? Alex. Kaleta still hasn't reported to Chicago's Regina work-outs and the Black Hawks management has announced no reason for his absence.

Syracuse Chiefs In Baseball Final

SYRACUSE, N.Y. (AP)—Syracuse Chiefs will meet the winner of the American Association playoffs Saturday night in the opener of the little world series.

The Chiefs, who finished third in the International League pennant race, defeated Buffalo Bisons, 10 to 3, last night in the seventh and deciding game of the circuit's final playoff series for the governors' cup.

A crowd of 11,388 saw the Chiefs take a three-run lead in the second inning, and three more in the sixth and four in the eighth to clinch the contest. Hank Sauer, the league's home run king, blasted his 55th circuit clout of the year in the sixth to give him a playoff record of 37 total bases.

The Chiefs will meet either Louisville Colonels or Milwaukee Brewers in the little world series. The Colonels won last night at Milwaukee to tie the association finals at three games each.

Hoop Entries Close Monday

Entries in the Victoria and District Basketball League will close at a general meeting of the association to be held in the Britannia Branch of the Canadian Legion Monday at 8.

Election of officers for the coming season will take place. A large turnout of team representatives is requested.

Fred Switzer is the new holder of the Uplands Cup. Posting a net 65 and 63 for the 36-hole competition at the Uplands he lifted the trophy by a four-stroke margin over runner-up S. C. Terise.

Seattle Defeat Knocks Club Out Of Playoff Chase

The first division in the Coast League race was decided today, but San Francisco, Los Angeles, Portland, Oakland, now in that order, may be shuffled about come Sunday and the end of the long regular season.

The Seals and Angels have clinched first and second places, but San Francisco is only one game ahead and there are five to play, so anything can still happen.

Similarly, Portland and Oakland have sewed up the third and fourth spots, but they, too, are only a game apart with five each to go. However, neither Portland nor Oakland can overtake either Los Angeles or San Francisco, a situation which slightly simplifies a thoroughly hectic race to the wire.

In any event the Governor's Cup playoff will begin Sept. 30 in San Francisco and Los Angeles, with the first place club being host to the third place and the second team as host to the fourth place. If there are first division ties, they'll be decided in one-game playoffs Sept. 29.

The Seals kept their edge by beating San Diego, 8 to 4, last night.

Los Angeles kept pace by trimming Sacramento, 4 to 2.

Oakland clinched a first division place by thumping Seattle, 6 to 3, leaving fifth place Seattle six games behind the Oaks with five to play.

Hollywood trimmed Portland, 8 to 7, as Andy Skurski stole home in the ninth with the winning tally.

	R.	H.	E.
Seattle	3	9	1
Oakland	3	9	1
Batteries—Barrett, Snyder (7) and Stump (1); Bearden and Raymond.			
Los Angeles	4	10	1
Sacramento	2	9	1
Batteries—Carlson, Dobner (9) and Malone; Freitas, D. Moore (9) and Pite, Gerald.			
San Francisco	8	14	2
San Diego	8	14	2
Batteries—Molton and Gladd; Kennedy, Gleason (9) and Rice.			
Hollywood	7	14	3
Portland	8	10	1
Batteries—Luka, Sierra (6) and Murtola; Ballinger (7); Ardoinis, Seward (6) and Sheely, Unser (8).			

Kiner 'Walked Out' Of Home Run Derby

PITTSBURGH (AP)—Ralph Kiner may be "walked out" of the home run derby because opposing pitchers seem too willing to give him a free ticket instead of a chance to hit.

The long-hitting Pittsburgh Pirates outfielder moved in front in the home run race by belting out a round-tripper against St. Louis Cardinals Tuesday night, but he had to hit one of the only two pitches Jim Hearn put in the strike box. The blow was his 51st and put him one up on Johnny Mize of New York Giants in their neck and neck race.

Kiner had four chances Tuesday night but he was walked three times, amid a storm of boos directed against Hearn by some 10,000 fans.

Kiner's season walk-total now stands at 95. His chances of equalling Babe Ruth's record of 60 homers in one season virtually are gone. He has only four games left.

Bowden, Johnston Share Golf Title

Posting identical net scores of 62 over the Uplands course in the first annual golf tournament staged by Oak Bay High School, Hugh Johnston and Jerry Bowden ended in a tie for championship honors.

Johnston had the best gross score of the day between the two titleholders, firing 82 which his handicap of 20 reduced to 62. Bowden shot a gross 92.

Other low scores were Bob Gibbons 64, Jim Baxter 65, Jim Harvey 66 and Alec McCabe 67. Twenty-five pupils took part in the tournament and officials in charge described it as an outstanding success. The tourney was organized by T. S. Whitmore.

TITLE FIGHT
NEW YORK (AP)—Ray "Sugar" Robinson signed Tuesday night to defend his welterweight boxing title Nov. 17 at Honolulu Stadium against Honolulu's Frankie Fernandez.

Fly Fishermen Do Well With Shawnigan Trout

By ROY THORSEN

With the return of the cooler fall weather, lake trout fishing is starting to come back in lower island, freshwater spots—Shawnigan being particularly productive for fly fishermen last Sunday and Monday.

One of the best catches recorded on Monday was the basket of beauties reeled in by Roger Monteith and Jack Grey. Their combined efforts paid off with a creel numbering 13 Kamloops. Grey got eight Sunday. They were casting teal and red dry flies.

Another Victoria angler who did well Sunday was Bill Davis. His catch numbered five, taken on the orange-bodied bucktail fly. Davis was angling the waters of this end while Monteith and Grey, cast their offerings in the entrance to the west arm. "Lots of fish there. I did not go out until 6 in the evening and I soon had the quintette in my basket," said Davis.

Cowichan Bay's big annual autumn coho run has not arrived yet. Some are being caught, but no large quantity like in years gone by at this period of the year. Jack Harris reports a chap dropped into the shop Tuesday to replenish his supply of bucktail flies. His story was he had caught 13 coho on Sunday on the bucktail fly. "It was the only lure the coho would show an interest in," he said. On the Wednesday before, however, he caught seven on No. 3 and 4 McKnight spoons.

SOME COHO OFF O.B.

Off Oak Bay there are some coho offered... the small num-

ber that are being caught are of the large variety. "In the last week there has been little improvement in the supply, but nothing to get excited about," said Mrs. John Bowker. She told of youngster Colin King taking a heavy Tuesday, singles also being scored this week by Ernie Clark and Albert Reynolds. Len Tison took a 15-pound spring. Wednesday John Lund scored three cod jiggling off Trial.

INLET OFFERS COHO, JACKS, GRILSE

Saanich Inlet's offering at the present time is a mixture of coho, jacks and grilse. They are not around in large numbers, catches from last Saturday onward not nearly reaching the numbers occupants of individual boats.

Although the angling population out there has fallen away below summer numbers, the pros of the circuit report most going out are bringing back fish, one, two or three and a few with more.

Hugh Creed reported good mixed baskets taken by Charlie Lowe and Ralph Day this week. The same day Chester Alexander took several jacks. Six jacks between five and 10 pounds last Saturday highlighted the report from Hall's boat-house. Using a lake troll and worm Dan Bichard scored six grilse and coho.

Harry Gilbert, reporting best fishing in early morning or from 4 in the afternoon to dark, said Harry Whitworth has averaged around four fish, of the three varieties, on his several trips out on the inlet. Abalone and tom mack spoons are recommended. The jacks are being taken fairly deep.

Cincinnati Reds Cinch Fifth Spot In National

The 1947 world series may go down in the books as the "battle of bullpens" but it hasn't looked that way in the final tune-ups of the Brooklyn and New York starters.

Not to be outdone by the Yankees who daily parade a new mound gem, the Dodgers' staff has been showing great form in recent efforts of Joe Hatten and Hal Gregg.

Gregg, who may be the dark horse of the series, warmed up for series duty yesterday by shutting out the home-run-happy New York Giants with one hit over a five-inning stretch. It mattered little that rookie Willard Ramsdell who came in after Gregg was lifted for a pinch-hitter, blew a comfortable lead and the game, 6 to 3, Gregg had looked fine in his turn.

Cincinnati, picked to scramble for the cellar with the Phillies, clinched fifth place, a fine tribute to freshman manager Johnny Neun. The Reds had to go hard to make it, shading Chicago, 6 to 5, on a ninth-inning home run by Grady Hatton.

George Munger hurled his second straight three-hitter for his 16th victory, a 5 to 1 edge for St. Louis over Pittsburgh. Whitey Kurkowski led the Birds' attack driving in four runs, two on his 27th homer.

Bobby Feller finally became the first American League pitcher to win 20 games, subduing St. Louis Browns, 9 to 1. Cleveland routed Ellis Kinder in a four-run fifth-inning attack.

Detroit stretched its second-place margin over Boston to a full game by noosing out Chicago, 5 to 4, in 10 innings.

Although Bob Kennedy nipped him for two homers, Freddie

Durocher Back In Flatbush With Future Plans Unknown

LOS ANGELES (AP)—Leo Durocher, former Brooklyn Dodger manager, deserted Hollywood and flew back to Flatbush today—and a fate in baseball that even shrewd Lippy couldn't foretell.

The next two weeks should prove most eventful to loquacious Leo, whose suspension from baseball—for "failure to measure up to standards, etc."—ends with the wind-up game of the world series.

He was exceedingly affable, and posed willingly for photographs with Laraine Day, his actress wife.

Would he be back with the Dodgers next year? A ready reply brought, "I can't say a thing about that until I see Mr. Rickey." That's Branch Rickey, big chief of the Dodgers.

Had he received feelers or offers to replace Billy Herman at Pittsburgh? "None at all."

Would he be interested in a Pittsburgh offer? "I'll repeat what I said before."

Louise Suggs Gets Scare In U.S. Golf

DETROIT (AP)—Narrowly averting an upset defeat, five-foot, five-inch Louise Suggs of Lithia Springs, Ga., Wednesday squeezed out a 2 and 1 second-round triumph over Sally Sessions of Muskegon, Mich., to lead the way into the quarterfinals of the 47th women's national amateur golf tournament at Franklin Hills Country Club.

Moving with her into the round of eight were a pair of 20-year-old youngsters, Mary McMillan of Green Bay, Wis., and Grace Lenczyk of Newington, Conn., holder of the Canadian women's title.

Miss Lenczyk overcame an incorrigible putter to knock out Helen Sigel, blonde Philadelphia, 4 and 3.

Hutchinson went the route, yielding nine hits for his 17th victory.

	R.	H.	E.
Chicago	3	12	0
Cincinnati	6	7	1

Detroit	5	11	0
Chicago	4	9	3

—I hope to manage Brooklyn until the day I die."

NO COACHING JOB

Would he accept a coaching job in the majors? "No."

How about a managership of a minor league club? The answer was rather surprising. "I might—with one club I know of."

Would it be Hollywood in the Pacific Coast League, scene of Leo's rare public appearances since he took refuge here last spring? Durocher smiled. "You've got a good manager out there—Jimmy Dykes."

Did he buy the box he and Laraine will occupy at the series? Again a chuckle. He said he had phoned secretary Hal Parrott of the Dodgers, Parrott advised him Durocher's old box would be waiting. "No one gets in free at the series. No complimentary tickets."

Whether Mr. Rickey bills me for it—well, that's something I don't know."

To Attend Washington

PETER SALMON

The Flying "Y" swimming club lost the services of two of its outstanding performers this week when it was learned that Ina and Peter Salmon, famed brother and sister combination, had entered the University of Washington. Although Ina and Peter will not be eligible for collegiate competition this season, they will be eligible to compete for places on Canada's Olympic team next year. It is still possible, however, that the swimmers will be allowed to compete for the Y.M.C.A. in authorized international meets.

Six Teams Enter Intermediate Soccer League

The Intermediate Soccer League will be composed of six teams this season it was announced following a meeting of the Lower Island Association last night at which team entries closed.

Oak Bay, Saanich Thistles, Saanich Indians, Royal Canadian Navy, Vikings and Brentwood Aces make up the loop. Aces are making their first venture into soccer circles and manager Rom Knott is a busy man these days learning the rudiments of the game. He has lined up a number of star suburban athletes for the squad and feels confident they will make a good showing.

League play will commence Oct. 4 with Vikings meeting R.C.N. at Heywood Ave., Oak Bay playing Saanich Thistles at Windsor Park and Saanich Indians tackling Aces at lower Beacon Hill. Games start at 2.30.

E. Wells was named to the executive at last night's meeting. The next meeting has been set for Oct. 1 at St. Louis College.

Greenkeepers Hold Tourney At Ardmore

Thirteenth annual greenkeepers' golf tournament will be held at the Ardmore Club, Oct. 2. The event will be 18 holes medal for the J. A. Sayward trophy, at present held by W. Unwin of the Uplands Club, who will defend his honors.

Other prizes will be given for the low gross, putting and hidden hole competition. The inter-club shield, won last year by the Oak Bay team, will also be competed for.

It is hoped that representatives of the B.C. Greenkeepers' Association, Vancouver, will participate.

Vancouver Captures Junior Boxla Series

WINNIPEG (CP)—Vancouver All-Stars captured the western Canada junior lacrosse title here Wednesday night, whipping Winnipeg Elmwood Terriers 19 to 11 before about 600 fans in the second of their two-game total-goal series to take the crown 35 to 14, having defeated Terriers 16 to 3 Tuesday night. The victory sends the Vancouver squad into the Dominion finals for the Minto Cup against St. Catharines, eastern champions.

Lyle Scott, red-headed centre, headed the Vancouver scorers with four tallies, while Bill Hanula and Jack Byford bagged three goals apiece.

SOCCER MEETING

A meeting of the Wednesday Football League will be held tonight at Albert's Barber Shop, Yates Street, starting at 8.15. Officers will be elected and entries accepted.

Dodgers' Infield Has Edge Over Yankees

NEW YORK (AP)—Ralph Branca won 21 games for the Dodgers, Bruce Edwards did a great job behind the plate, Dixie Walker still is as large as life in right field, but when it comes down to cases, Brooklyn won the National League pennant because it had the best infield in the league if not in baseball.

After all, the Dodgers' inner works contains the majors' greatest base runner in first baseman Jackie Robinson, the scrappiest performer in Red Stanky, the best shortstop with the possible exception of Cleveland's Lou Boudreau in Pee Wee Reese, and one of the most promising first-year men in third baseman Johnny Jorgensen.

Sports Mirror

By PETE SALLAWAY

ANYBODY in the market for a couple of dozen top-grade baseballs? If so, just contact umpire Amby Moran in Vancouver and he will be only too glad to make a deal, cut-rate if necessary. It seems that when the barnstorming Western International League all-star clubs wound up their tour in Spokane recently there wasn't enough money to go around. The paid attendance at Spokane was 422 and, after all, it costs \$280 to just open the gates of Ferris Field. When it came to paying off Moran it was a case of take the balls or nothing. Big roly-poly Amby was in Victoria this week, packing the balls around under his arm and looking for Reg Patterson, business manager of the A's, with the idea of making a sale. However, Pat was out of town, so I imagine Moran returned to Vancouver balls and all.

JACK SHORT, Victoria native son who has made a name for himself in horse racing since he took over the job of handling the public address system on British Columbia tracks, is going to stay in these parts. Chatting to Jack out at the Willows this week he informed me he had given up any ideas of accepting several promising offers from California interests. Short spent six weeks touring California and Nevada last winter and during that time interviewed numerous parties relative to going to work down there.

I HAD a good offer to go to work at the "Hollywood track," Short said. "In addition, a couple of radio stations in California wanted me to take over the handling of all their racing broadcasts, but, after figuring out the high cost of living and increased entertainment costs, decided I was just as well off to remain in the Pacific Northwest. Then, again, I don't like all the heavy traffic that marks every trip one makes in a car down there. It's just a case of too many people." So you racing fans can expect to hear that well-known sign off "Adios Amigos" on B.C. stations for some time to come.

ALTHOUGH no definite announcement has been made, I hear on good authority the Victoria Athletics will again look to the New York Yankees system for their ball players next season. It seems the Victoria directors are perfectly satisfied with the treatment received from the Yanks during the past season. As a matter of fact the Yankees have the right to renew the agreement and I am told the renewal is already in the hands of the Victoria club. All that remains is for the directors to get together and give their formal approval.

Reese-Stanky duo has figured in more double plays than the Rizzuto-Stirnweiss combination. Stanky, with only 12 errors in 802 chances, is fielding at a record-breaking .987 clip. Reese owns the highest batting average of the four, .287. Rizzuto is hitting .275, Stanky and Stirnweiss around .255 each.

At third Johnson, with a .288 batting average and 94 runs batted in has the edge over Jorgensen who is hitting .274 and has driven in 62 mates. He also rates the nod in the field, helped largely by one of the strongest arms of any infielder.

Box No. 308, Times

Fiery, Itching Toes and Feet

Here is a clean, stainless antiseptic oil that will do more to help you get rid of your trouble than anything you've ever used. Its action is so powerfully penetrating that the itching is quickly stopped, and in a short time you are rid of that bothersome, fiery torture. The same is true of Barber's Itch Ball, Eczema, and other irritating unsightly skin troubles.

You can obtain Moone's Emerald Oil in the original bottle at David Spencer Ltd. or any modern drug store. It is safe to use—and failure in any of these ailments is rare indeed.

Piles Go Quick

Here is a low cost, simple home medicine. It helps make it possible for you to get quick relief from the itching, soreness and burning pain of piles. It is a medical fact that piles come from causes INSIDE your body. They may need internal treatment. Hem-Roid is an internal medicine. Its medical action helps correct some of the internal conditions that cause such intense soreness and pain. Hem-Roid relieves constipation, wakes up your lazy liver and bile, eases the torturing rectal irritation and helps heal the sore, painful pile tumors.

If you want quick and effective relief for Hem-Roid today at any drug store. It has helped thousands of pile sufferers. It should help you too. Try it, now and see how quickly and easily you can relieve your pile misery.

NAVIGABLE WATERS PROTECTION ACT

R.S.C. CHAPTER 140
The Coast Mills Export Company Limited of Vancouver, B.C., hereby gives notice that it has, under Section 7 of the said Act, deposited with the Minister of Public Works at Ottawa and in the office of the District Registrar of the Land Registry Office, Victoria, B.C., a description of the site and plans of dolphins proposed to be constructed and storage area for boats in Cowichan Bay on Lot 100, Cowichan District.

And take notice that after the expiration of one month from the date of the first publication of this notice the Coast Mills Export Company Limited will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for leave to construct the said dolphins with use of the said storage area.

Dated at Duncan, B.C., this 22nd day of September, 1947.

No Reason Remains For Price Control, Gibson Broadcasts

OTTAWA (CP)—As long as the wartime artificial shortages lasted, the federal government "was justified in retaining ceilings at levels in effect in 1941 and in paying subsidies to keep down prices to consumers," State Secretary Gibson said Wednesday night.

"But once the war had been over for a reasonable time and it was clear prices and costs had settled more or less permanently at higher levels, these controls and subsidies could no longer be justified," he said in a prepared speech over a national network of the CBC.

Speaking on free time provided for political broadcasting, Mr. Gibson said the government's policy of decontrol had not been dictated by pressure from any group in the community.

He believed most Canadians would agree that the Canadian government was wise to adopt a policy of gradual decontrol rather than a policy of sudden and complete abandonment of controls such as occurred in the United States.

WHEAT, FLOUR POSITION
He felt the government had been justified in paying a subsidy to keep the cost of wheat

to millers down to 77 cents a bushel. This had prevented an increase in the cost of flour and an increase in the cost of bread.

"During wartime that policy was reasonable," he said. "But can anyone seriously believe that the price of wheat will at any time in the foreseeable future return to such a low level as 77 cents a bushel, or that consumers should continue to be able to buy flour based on depression prices for wheat?"

"As it is, thanks to the policy of long-term guarantees to the producer in respect of wheat prices, Canadians will still be paying relatively less for flour and bread than consumers in most other countries of the world."

The Prices Board had been instructed to keep careful watch on the prices of decontrolled items. The board could reimpose ceilings where it was satisfied unreasonable and unjust price increases had occurred.

Vancouver Woman Guilty Of Manslaughter

VANCOUVER (CP)—Elinor Eva Boucher, 21, was convicted of manslaughter by an Assize Court jury here Wednesday on a charge arising out of the death of Harry Woo, 52-year-old Chinese fish cannery foreman, June 17. Woo was alleged to have been beaten by Miss Boucher and John Kneller in their room. Trial of Kneller, jointly

Arsenic Tinged Soy Sauce Seized

WINNIPEG (CP)—About 8,000 pounds of arsenic-tinged soy sauce, which could have resulted in death had it been used, was seized by city health officials in a local warehouse and several retail stores and restaurants, Dr. R. C. Morrow, assistant chief of the food and dairy division of the Winnipeg Health Department, revealed today.

The sauce, used freely in Chinese dishes, was shipped to Winnipeg from a firm in Illinois, whose officials on learning the shipment possibly contained arsenic, promptly communicated with health officials here, naming the Winnipeg distributors to whom the sauce had been shipped.

Health officials, moving rapidly, rounded up all the sauce on the premises of the distributors and of the retailers to whom deliveries had been made.

"None of the sauce reached the consumer," Dr. Morrow said. The only explanation given as to how the sauce had become tainted was it could have happened during the spraying of the soy beans or during the processing of the sauce.

charged with Miss Boucher with the murder of Woo, was set to open today.
